Jekyll And Hyde... Together Again

By Monica McGowan Johnson

now gently,gently,ever so gently
we probe the bones and fleshy tissue
searching for the object
pressing the patients nerve
hes been at it for over two hours
what a great doctor
and so cute
aha!and there it is
doctor Jekyll,you're so bitchin
control yourself nurse
sor-ry!
and now we must quickly
remove the object
restoring the patients motor functions
impressive!
very impressive Dr. Carrew
I'm glad you approve,sir!
Dr Jekyll is the finest surgeon we ever had at our
lady of pain and suffering
Its only fitting that he preform the worlds
first total transplant
on you, the worlds richest man,Hubert Howes
Have I told you how proud we are to be performing
the operation here at our lady?
several times
you're a... kiss ass aren't you
yes sir!
I like that

Dr Jekyll:

isolated areas of the cortex
we can demonstrate that all normal
function have been restored
arm movement
even finger movement
now we must close the scalp
needle and thread
thimble
he has the steadiest hands
I ever seen
now, are there any question?
does a good physician validate parking?
thats a matter of individual conscience
sir,what new surgical breakthroughs

are you planning?
Actually none....I am giving up surgery
I'm sorry class this is the last
operation i will ever preform
Barbera Plow, I'm a resident specializing
in nuclear medicine
and I can really get behind everything
you're saying and everything..
but,it really just blows my mind you know
to think you'll never be operating again
because you're so mellow and everything
you know
and like,it really like freaks me out
to the max
to think that you're quitting on me
and like couldn't you do one more
operation for us..please
please,please,please
no...no,no,no,no
from now on,I intend to devote every
waking hour to research
research,that i hope will one day unlock
mans brain and release
survival instincts
enabling to make himself well
research that will one day eliminate the
costly,painful,almost inhumane procedure
we now call.. surgery

patient:

Dr. Jekyll,what do you intend to
replace suergery with?
Drugs
(interns cheering)
Don't worry sir,he'll be leaning
over you friday with a knife
rest assured
if this operation,doesn't come on...
I'll buy this whole block...
I'll blow up this building....
with you tied in you're office...
and I'll dig the corpse out of the rubble
and throw it in an open pit
in front of your whole family

Jekyll

Jekyll

Jekyll

What the hell was that nonsense you
were spouting in there

I wasn't spouting nonsense...

I was spouting the truth

Truth?truth won't buy a used turd
my boy

I don't feel like getting into a physiological
discussion,i got work to do.

let me go

No

I'm asking you man to man

let go of my smock

sure I'll let you go so you can preform
the most important operation of your life
on Hubert howes

Hubert Howes?

Ahhh Haaa Haaa!

I thought that would interest you

He has chosen our lady and you to do
the worlds first total transplant
total transplant?

thats right heart,liver,lungs,reproductive organs
and anything else we can dig up

soon as we gather them up

we're gonna stick'em in him

and you're doing the job

I'm sorry,ther was a time when the
challenge would have appealed to me
but right now my research....

Screw your research!

you signed on here as a surgeon and
by god thats what you're gonna be
later

look at all that machinery

those gizmos cost money

big money

we got to keep those machines working
to pay for them

they help people

back from the brink of death

and the only way to put'em on

the birnk of death is surgery
you have a strange attitude for a hero
you have a strange attitude for
a man engaged to my daughter!
i own this place,i gotta keep an oven
to pay the rent
I make money,my daughter benefits
you benefit.... its simple
ugly perhaps,but simple
I'm late
you're doing that operation!
No I'm not!
You can tell Hubert Howes to
stick it up his ass
He doesn't have an ass!
thats another thing we're transplanting!
I'm late for my rounds in the
charity ward
Jekyll,I swear I'll stop the marriage
I don't believe you would use your daughter
as a pawn in this sleazy affair
you don't?
maybe he would
how are you feeling today?
terrible doctor
since last night my back has
been a miserable pain
I smell death!
lets have a look,shall we?
you'll feel a brief pain
feel better?
oh yes!
its a miracle!
the pain is gone...
...and so is the smell of death!
you get some rest now
how are we today?
Owww!
Hi, Daniel
Hello sick people!
Good afternoon Ms. Carrew
Good afternoon,Carla
Mary,what are you doing here?
well....

I was suppose to have lunch today
with a certain young, successful, handsome
brilliant surgeon, but i guess he forgot
You're seeing another man?
I'm talking about you silly!
Oh, I'm sorry about lunch dear..
..its just that I have alot on my mind
My research, the charity work
the daughter I adopted from
the developing nation...
read that, i have to answer the letter she wrote
dear American fraud
the day will come when you and the
other dogs of imperialism
will be disembowed by the subjugated masses
on your bones will be left to rot
under the sun of revolution...
P.S. thank you for the combs!
How sweet!
Her vocabulary is really improving
Shes a lovely girl...
(patient mumbling)
What did you say?
Fucking blue cross!
Look at this poor, suffering soul
If only I could make his
survival instincts stronger
Thats the key!
Daniel, could you walk me back to my
car before you go back to work?
Of course
Daniel, you got to stop working so hard!
Guess i'm not much of a fiance' am i dear
Its you i'm worried about
I'm sorry dear..I'll try to
be more fun
Its just hard right now
My experiments aren't going great...
you're fathers on me about operating
on some senile old billionaire
My hairs thinning out in the back
Daddy told me you're giving up surgery
Yes
I know what you're thinking Daniel...

You're thinking that if you still don't make
alot of money,I won't marry you
I wasn't thinking that
I was
Uh,Mary!
Sometimes I question your values
Oh,don't
anyway we're gonna be fine darling,because...
I took the notes for your experiment
and i submitted them to the
prize committee
Really?!
Mary!
I know you're gonna win
the prize..500,000 dollars
you know my research is a private thing
you violated my sacred trust for a few dollars
honey,we've gotta eat
Hi kids,all for a nueter?
whats a nueter?
never mind,Daniel
Hi Newt you devil
thats me!
now Daniel,don't work to hard
you need to rest
I'll rest on our honeymoon
not if i can help it
Bye gorgeous
bye,bye!
What a beauty, huh?
yeah,but its a gas guzzler
I'm talking about Mary
thank god they're not all like her
I'd be out of plastic surgery business
Oh,by the way
what do you think of my nose?
I took a little off the top this
morning, just a trim
I ah, did it myself
you didn't notice did you?
Hey Jek...
Hey Jekyll
Wait up!
You're looking awful tired

these days old buddy
come to my office I'll do a
quick eye job on you.
people are starting to talk about you

Intercom:

to the emergency room
There is an asshole waiting
I know my theory is correct
man over the centuries...
man over the centuries has tried to
control nature with his intellect
And it is this question which is at
the root of human suffering and illness
If only the animal in man can be released...
and studied....
if mans primal survival instincts
could be tapped
for the good of the organism
as a whole...
So far dear diary my results
have been discouraging
after administering formulas one
through six in test rats..
no perceivable results are
noticed
little guy remains listless and depressed
modified formula 137 administered
must also be deemed a failure
I shall have to begin again
(knock at door)
Just a minute
(knocking again)

....Mrs. Simpson
It isn't dangerous,is it Dr.Lanely
No..no..no..no
With the new technique...
Complications are unheard of
No incision is even needed
With this new procedure...
We merely need the precise amount
of collangen behind the soft tissue
For the results we want to achieve
You'll feel a slight pressure..
...And your breasts will grow in a jiffy
Ready?
See its almost fun,isn't it?
