Hundreds of years ago, the Triads will
kill their enemies...
with 100 cuts to the body.
They would be very careful to avoid
any major arteries...
so that the victim would stay alive
for as long as possible.
You have just experience
to your first cut.
If anything happens to Soo Yung...
You can never kill me, Lee.
We both know that.
You know nothing about me.
I know you have no wife.
No children. No family.
Your life ended when you were a kid
back in Chenjo.
You have nothing... just like me.
I won't say nothing.
