# Syndromes and a Century

By Apichatpong Weerasethakul

You majored in Pharmacy?  
Only for two years  
Then I studied medicine for four more  
Why did you switch faculties?  
I found life in the pharmacy boring  
You don't get to meet many people  
But it's comfortable work  
Yes, but it's always the same old faces  
I like meeting a wide variety of people  
To gather new experiences?  
Yes, to see faces come and go  
How would you describe yourself?  
I'd say I'm a cheerful person  
Why do you think you're cheerful?  
I'm gauging from my friend's reactions  
when they're with me  
They seem to enjoy themselves  
Do you play any sports?  
- Sports...  
- Can you draw?  
I can play basketball  
What position do you play?  
Centre  
Do you prefer drawing with paint,  
pencils or pastels?  
Drawing? Pencils, mostly  
- You prefer pencils?  
- Yes  
Do you prefer triangles,  
squares or circles?  
Circles  
A circle? What colour would it be?  
I'd like it to be clear  
Clear? And what size?  
- About the size of the bottom of a glass  
- The bottom of a glass  
Do you keep any pets?  
I used to have a cat  
You had a cat...  
Can you sit up straight, please?  
Turn to the left  
OK. What hand do you use  
for surgery?  
- My right hand

- Can I see it?  
Stretch out your arm  
Spread out your hand  
Clench your fist  
Clench it harder. Hold it steady  
That's fine  
- What was that for?  
- What does DDT stand for?  
- Pardon?  
- What does DDT stand for?  
DDT...?  
Do we have to know that here?  
What does it stand for?  
Is it the pesticide?  
'Destroy Dirty Things'  
Or is it 'Deep Down To You'?  
Take this note to Dr Prasarn  
in the emergency ward  
- Don't peek at it, Doctor  
- OK  
- Is there...?  
- I'll be off, then  
See you  
Sorry I kept you waiting  
A cup of tea?  
Doctor... I brought you a small gift  
You shouldn't have  
Thank you very much  
Is it beef or pork?  
It's crispy pork  
Keep it in the freezer  
so it stays crispy longer  
Thank you again  
Excuse me...  
...this is my first day here...  
Are you sure you want me  
in the emergency ward?  
Aren't you used to it  
from the army camp?  
Not really. We rarely saw  
serious cases there  
And when I see blood I get...  
You get what?  
Excuse me

Pardon me,  
Dr Prasarn asked me to fetch you  
Koh, this is Dr Nohng  
- Hello  
- Hello  
To fetch me or Dr Nohng?  
- I'm not sure  
- Then please take Dr Nohng there  
- Aren't you coming, too?  
- Of course. Just give me a second  
- How's Nook? I haven't seen her lately  
- Busy selling T-shirts. I want a new girl  
She might find a new guy first  
I met a cute girl while I was  
out drinking with Dr Prasarn  
- Whereabouts?  
- A place right behind the hospital  
There are pubs behind the hospital?  
Didn't you know?  
I pass by everyday  
and haven't seen any  
What time do you pass?  
They open after 9:00pm  
No one's around that late  
Everyone's gone home by then  
So he got her number and called her up  
How did it go?  
Well, she also gave me her number,  
and it turns out she liked me more  
Really?  
When I called her,  
we talked for over two hours  
Who's prettier, her or Nook?  
Dr Nohng, aren't you sore...  
...from walking so stiffly?  
I'm used to it  
This way, Doctor  
Dr Prasarn, this is Dr Nohng  
whom I recommended  
Did you see a lot of patients yesterday?  
Not really. It feels busier today  
Are they construction workers?  
- Yes, a couple of brothers  
- Really?

- They're cute, huh?  
- They're OK  
- Our hospital's giving away glasses?  
- Like the ones in star Wars  
You're right!  
The same style  
- I forgot I've left someone in my room  
- Who?  
It's OK, I'll go back to them  
after my rounds  
They're going to plant a lot more trees  
This is where they'll set up the stage  
For the Buddhist holiday?  
There is alms-giving in the morning  
In the morning  
Hey! I forgot to turn it off. Hey!  
Turn off what?  
This thing clipped to my pants  
What are you talking about?  
We're done  
It's kind of like...  
- Like what?  
- ...playing the same scene over  
Damn it  
At first it wasn't so bad  
- You wanted to be an actor, right?  
- It's only been five takes  
All together  
What's wrong with my eyes?  
I'm checking if your brain's  
response is normal  
My brain?  
Yes  
Do you have dreams often?  
Well, I don't really know  
Since I fell out of bed the other night...  
...I've been like this  
Your leg is sore?  
My leg is sore and my joints ache  
I see  
The other night...  
...I dreamt about a flock of chickens  
When I was a boy, a young boy...  
...I was naughty and mean-spirited,

I used to break their legs for fun  
I'd go visit my friend's farm...  
...and break the legs of his chickens...  
...because their clucking sound  
really bothered me  
In my dream...  
...they told me that  
they wanted me to suffer  
Despite the fact that I've offered  
prayers for them for many years  
You can communicate with chickens?  
Their spirits came and possessed me  
I guess they wanted revenge  
I ran away,  
but they chased after me  
They kept chasing me. I was so scared  
I grew wings and turned into a chicken  
I always sleep on my side  
and hug a bolster pillow  
In my dream, I was woken up...  
...and they kicked me out of bed  
I landed on the floor  
and all my joints were aching  
Do your joints still ache?  
Now and then.  
That's why I came to see you  
- Do you eat a lot of chicken?  
- I guess so  
I really should try to eat less  
to reduce my bad karma  
But when I collect alms,  
I must accept what's offered  
Can you excuse me for a minute?  
Where are you going?  
- I'm going...  
- You haven't finished my check-up  
I'm going to quickly pop next door  
Excuse me  
Wait for me here. Don't go anywhere  
Mr Chai. Mr Chai  
Mr Chai  
I need to speak with you  
Over here, please  
It's about the money I lent you

It's been a while  
The new school term has just started...  
...and my son's school fees  
are expensive  
Why won't you look me in the eye?  
Something doesn't sound right  
Would you swear to it?  
There's a monk waiting in my office  
Let's go see him  
Swear to what?  
Swear to keep your promise, Mr Chai  
How could you forget?  
Don't make me swear.  
I'm afraid of monks  
Don't be so silly  
We're not talking  
ghosts and goblins here!  
You didn't seem afraid  
when you borrowed my money  
Sorry about that  
Please excuse me  
- Everything in order?  
- Yes  
There's a lot of uric acid in poultry  
It collects in your joints,  
if you eat too much  
Let me run some more blood tests  
- I hope you don't mind...  
- Yes?  
I sense confusion inside your heart  
Confusion? About what?  
About money matters, you know?  
Boil these roots and drink them  
to help you forget  
What is it?  
It's an herbal potion  
handed down from my ancestors  
It helps regulate menstrual flow...  
...cures fainting and dizzy spells  
But it can't treat everything  
I have this itchy rash  
Can you treat it?  
You have a rash?  
On my body and my arms

Excuse me. Let me see  
This arm?  
- Doctor?  
- Yes?  
Can I also have some sleeping pills?  
You have trouble sleeping?  
My dreams keep waking me up  
Dreaming is normal. Everyone dreams  
I need some medicine  
for the other monks...  
...and for the villagers  
who live near the temple  
I can't do that. They have to come  
and see me themselves  
Why? Just write the prescription  
You know, when to take the pills...  
...kids or adults,  
before or after meals  
Just write it on the packet  
I really can't do that  
It's against the rules  
If someone found out,  
I'd be held liable  
Right now, I can only  
prescribe medicine for you  
How about this?  
At least give me vitamins  
for the temple boys, OK?  
I really can't  
Why not?  
Well, they need to see me in person  
I know you can, but you won't, right?  
I can only treat patients that visit me,  
otherwise I can't prescribe anything  
Hey, Sakda...  
...tell the doctor about your condition...  
...your asthma condition  
That's not me. That's my mother  
His mother has had asthma for a while  
Sakda, describe your mother's condition  
Nine...  
Slowly  
One more time. Ten...  
Very good

And lower your arms  
Now the third position.  
Stand at ease, hands on your hips  
We're going to slowly squat down  
Squat down until your thighs feel taut  
Now, slowly stand up. Good  
Squat down  
Stand up  
We'll do this fifteen times...  
...to strengthen our knees  
Rinse your mouth  
Oh, use that cup and spit in the bowl  
You've never been to the dentist, right?  
Yes, this is my first time  
I can tell  
Just a little more  
I'm gaining merit by giving a monk  
a free dental check-up  
What merit?  
I'm just like anyone else  
I'd like to be normal, but some  
mysterious force has a hold on me  
It keeps me cloaked in saffron robes  
that I can't seem to shake off  
I used to dream of being a DJ...  
...of owning a comic book store  
Being a DJ sounded fun  
I turned on a radio show from the city,  
and it was playing pop music  
- You listen to American music?  
- Yes, I listen to modern music  
I wanted to request a song,  
but I didn't have a phone...  
...so I sent a letter instead  
and introduced myself  
The DJ replied and invited me to dinner  
Over dinner, he asked me to be a DJ,  
but I turned him down  
I don't know why. I always wanted to...  
You know, I'm a singer  
A singer? Really?  
- What kind of songs?  
- Mostly Thai country music. It's a hobby  
I don't listen to much of that

Open up  
You're the one on the bulletin board?  
On the board? Yes  
You won some kind of prize, right?  
- Yes  
- Dentist of the Year  
Let me cover your eyes  
Ouch!  
Sorry  
Is this a check-up or a concert?  
I'm still waiting  
What?  
Let me play. Just for a bit  
Excuse me, Doctor  
Would you like to have lunch?  
No, thanks, I'm not hungry yet  
Is there something  
you wanted to see me about?  
Doctor...  
...can we get engaged?  
Is everything all right?  
No, it's not  
Doctor...  
My stomach is rumbling  
Are you trying to torment me?  
Have you ever been in love?  
Well...not exactly  
Then you won't understand how I feel  
I feel as if my heart's on fire  
I can't eat, I can't sleep  
- It's like...  
- I understand  
I once knew a man...  
I once met a man  
at the Farmer's Market  
- Are you interested in that orchid?  
- Yes  
It's an auspicious plant  
that will bring you luck  
It also glows in the dark  
- Glows in the dark?  
- Yes  
I have a picture I can show you  
Can I help you?

- How much?  
- It's a wild orchid. 25,000 baht  
I bred it myself.  
Its form is very distinct  
It's not hard to grow.  
It doesn't like direct sunlight  
It prefers to be in the shade  
You saw I liked it  
so you jacked up the price, right?  
But it also glows in the dark  
I have pictures I can show you  
Here you go  
It costs too much  
Look at the picture. Can you see?  
Excuse me, how much is this?  
Which one?  
That one is 250 baht  
- 25,000?  
- Yes  
It must be an electric orchid!  
I'm not feeling so good, Doctor  
But if it makes you happy...  
...please continue with your story  
I'd like to...  
...but I'm afraid it will upset you  
It's too late for that, Doctor  
I thought it might make you feel better  
It's not as if I'm going to marry him  
You're not?  
Why are you laughing at me?  
This is why I love you so much  
From the very first time I met you.  
Do you remember?  
- That day...  
- Then he came to the hospital...  
Please, Doctor, listen to me first  
- That day you wore...  
- He came to look at a wild orchid  
Wow, how amazing  
It's the rarest wild orchid in Thailand  
We have several orchids here...  
There are many types,  
but this one is priceless  
- Are you tricking me?

- No, I'm serious  
- It's a sin to lie  
- I'm serious  
I'd like to buy it to breed at my farm  
I thought you said it was priceless  
Look at the roots, Director  
They're not so pretty. Twining all over  
People don't like it so much  
It seems to lack form and order  
Can you see?  
Perhaps my wife might like it  
Right, Doctor?  
These are photos taken at my farm  
Feel free to visit anytime  
Well, I wish I knew more about orchids  
Who's there?  
Are you Dr Toey?  
Yes  
Noom talks a lot about you  
What has he said?  
Come down here  
What are you doing?  
Careful, it's slippery  
I'm making a mud pack...  
...to take care of my legs  
What's wrong with them?  
I fell off a motorbike and broke one  
Now one leg is longer than the other  
Really? Let me take a look  
Right here  
Look at the fish nibbling at my feet  
They're tickling me  
Try it and see  
Here, bite on this  
Be careful nothing pulls you down  
It's hard to access  
Can you drive in?  
The waterfall has seven levels.  
We have to go on foot  
- We park at the base and walk in  
- There's parking there  
- But we'll leave Pa Jane behind  
- No way! You'll have to carry me up  
Or send her back to Nong Kai

You have two choices, wait  
at the base or go home to Nong Kai  
- I'll stay with you  
- Send her to Nong Kai  
You've been with me  
for so many years  
Here, Doctor, this is the waterfall  
he's talking about  
- What are you doing?  
- What?  
Put it away  
- Let her look at it first  
- Don't look at it  
- Is there something I should know?  
- It's a trick she uses to sell her bags  
Buy one and I'll throw in one for free  
Deal?  
A few miles past the temple  
there's a sign and a statue of a cow  
- Doctor, look at this old photo  
- Pass an intersection...  
What?  
Where did you get that?  
Just keep driving  
Who's the girl with long hair?  
It must be Pa Jane  
Keep your eyes on the road  
Is that a tattoo on your arm, Noom?  
He doesn't like to talk about it.  
It's too painful  
My father asked me to get it  
A tattoo of what?  
You got a rose tattoo for your dad?  
No, I just got a tattoo as he asked  
Just a small one  
Don't lie and act embarrassed  
You're always on my case  
A red rose, too, Pa Jane  
They don't scrimp on the topping  
It smells good  
It's really sweet  
You're so attentive.  
How come you don't have a boyfriend?  
Who says I don't?

Really?  
The fortune teller said so  
One or many?  
It depends on which one you ask  
Many boyfriends from all races  
A long time ago, Doctor...  
...two farmers came across  
a young monk  
The monk asked them...  
..."Would you like to be rich?  
You've suffered for so long"  
The farmers told him they did...  
...so he told them  
to go down to the lake  
All this from here to there  
used to be a lake  
When the farmers got there... By golly!  
It was full of gold and silver  
They rushed to stuff their bags full  
Suddenly, a solar eclipse occurred...  
...and the sky went dark  
They kept gathering gold in the dark.  
They got so rich  
But one farmer was greedy...  
...and he came back for more  
- They say thieves robbed his house  
- Then what?  
They shot him dead  
That's the result of being greedy  
How cruel  
This is a powerful place  
No matter what people do,  
no matter what we do...  
...something always watches us  
Like you coming here...  
...it knows all about you.  
I know as well  
Know about what?  
Come on  
Just let him know your true feelings...  
...or you might miss out  
But he does smell nice  
What?  
But sometimes, I just want to be alone

No way. Then it won't be exciting  
Otherwise why did you  
give him the orchid?  
I'll open it for you  
Have you looked  
in his bedroom yet?  
Do I have to?  
Of course! You judge a man  
from his bedroom and his desk  
I'd have to wait for him  
to fall asleep first...  
...before I could look inside  
This way. You have to slide it open  
Sorry. My room is a bit of a mess  
It's not that messy  
I wasn't expecting company today.  
It's not often I get visitors  
It's always a mess  
- Please sit down  
- Thank you  
Have an orange  
You think it looks OK hanging there?  
Will this one glow in the dark as well?  
After you  
Are you tired?  
A little bit  
Better?  
Where's Pa Jane going?  
She can't stay out under the hot sun  
Come on, Mom Mam!  
What are you thinking about?  
Come here, Mom Mam!  
If you secretly liked someone,  
what would you do?  
I'd hide behind a pillar  
and peek out at them  
But then how would they know  
that you like them?  
I don't know  
But that person isn't you,  
I just need your advice  
I can't decide what to do  
Why? What's wrong?  
I don't know what to say

Is it a man or a woman?

- I'm just joking

- That's a strange question

It was a joke. Don't take it to heart

I'm not accusing you of anything!

- That was mean

- I'm only kidding

Is the orange peeled?

It's all crushed

- It's completely squashed

- Have another

So, go on.

You secretly like her...?

But I don't dare to confess my love

Could I do anything to help?

smile, your smile makes me happy

smile just once more

Just a glance, I'm standing here

Waiting for your smile

Just a simple smile from you

Teeth, so clean and white

lickering in the shadows,

shining in my heart

To you no one compares

Please brighten me with your smile

smile and it will be mine

Please brighten me with your smile

Can you feel me smiling back?

Love is the answer

Love and concern

The tenderness of your smile

Inspires me as always

My guitarist

smile, your smile makes me happy

smile just once more

Thank you very much

Thank you very much

A round of applause for Ant

Let's bring him upfront

He wrote the music on all my albums

Give him a big hand

I wanted to watch you sing,

but I couldn't go, it's not proper

Why not? The fair was at the temple

There are too many people  
When I saw you walking up,  
I almost didn't recognise you  
My green jacket must blend in!  
The nurses didn't remember me either  
Really?  
You've never worn this outfit here?  
No, I'm afraid I'll run into patients  
Brother, do you feel that...  
...maybe we knew each other  
in a past life?  
I don't think so  
You remind me of my dead brother  
When I was 8 years old...  
...I was naughty, as boys are  
Climbing trees to pick mangoes  
and such  
One day, my brother was  
too scared to climb the trees...  
...but I forced him...  
...and he fell and died  
I feel wrong to this very day  
Are you my brother reincarnated?  
It can't be  
I wasn't human in my past life  
I just want the chance to apologise  
To your brother?  
- Yes  
- I'm not your brother  
Because in my last life I was...  
It was my brother's  
- A horse?  
- Yes  
I'd like you to have it  
I can't accept it  
It's not mine.  
Save it for your real brother...  
...when you see him  
My brother is already dead  
Well, then...  
will you accept this instead?  
What is it?  
My new album  
For me?

It doesn't look like you  
It hasn't gone on sale yet  
'I Could Only Look'  
This is your real name?  
Yes  
Normally, I sing about teeth and gums...  
...but this album is all love songs  
But I don't own a CD player  
I'll present one as an offering  
That's OK. I'll borrow the abbot's,  
he has one  
Tohng!  
Dr Ple, follow me  
Where are you going?  
You also majored in Pharmacy?  
Only for two years  
Then I studied medicine for four more  
Did you find the army base boring?  
Not exactly, but I felt  
I'd be more useful here  
Why did you decide to study medicine?  
A pharmacist is stuck  
in the pharmacy all day  
- Did you follow your friends?  
- No  
- Did you consult your parents?  
- No  
- So you wanted to switch majors?  
- Yes  
How would you describe yourself?  
I'd say I'm a cheerful person  
Why do you think you're cheerful?  
My friends seem to have fun  
when they're around me  
How many friends do you have?  
I'm friends with everyone in my class  
And you still meet regularly?  
Yes  
Do you play any sports?  
- I can play basketball  
- Can you draw?  
What position do you play?  
Centre  
Why did you choose to play centre?

A centre doesn't need to be tall  
Do you prefer triangles,  
squares or circles?  
Circles  
What colour would you like it to be?  
A clear colour  
What colour is your clear colour?  
Clear like a glass  
What would you like it to be made from?  
From glass  
What if there isn't any glass?  
Plastic, I guess  
Can you sit up straight, please?  
- Are you right or left-handed?  
- Right-handed  
Can I see your right hand?  
Stretch your arm out  
Clench your fist. Clench it tight  
Tighter. Just a bit  
Thank you  
- Do you have any pets?  
- I used have to have a cat  
And now?  
It's dead  
What does DDT stand for?  
Pardon?  
What does DDT stand for?  
Is it...  
...'Destroy Dirty Things'?  
Take this note to Dr Natreprakai  
on the 8th Floor  
Don't peek at it, Doctor  
- Is there anything else?  
- I'll be off, then  
Sorry to keep you waiting  
Do you want some tea?  
Doctor...  
...I brought you a little present  
It's too much. You shouldn't have  
Please take it  
Thank you  
I'm a stubborn person. Wherever I go,  
I have to take my bolster pillow  
I need to hug it or I can't sleep

I wrap my legs around it  
and rest my head on it  
- You're very attached to it  
- You could say so  
That night...  
...I dreamt a chicken flock  
came to tell me...  
...that they wanted me to suffer  
But I forgive them. I've offered prayers  
for them for many years  
But they won't forgive me.  
I guess they want revenge  
I was scared  
and ran away from them...  
...but they came flying after me  
I kept on running  
Suddenly I felt like I'd grown wings  
and become a chicken  
But it was only a dream  
When I woke up in a fright...  
...I found myself on the floor...  
...my arms and legs  
pinned beneath me  
My whole body was aching  
Is it from eating chicken?  
Or do you think it's bad karma?  
Do you eat a lot of chicken?  
Come to think of it, quite a bit  
I've been meaning to quit  
- I agree. You should stop  
- Or I'll have double karma  
Or reduce the amount you eat  
Poultry is very high in cholesterol  
It contains a lot of fat and uric acid...  
...that collect in your joints  
if you eat too much...  
...and it makes them ache  
Therefore, you must try  
to cut down if you can  
Eat more fruit and vegetables instead  
They have more nutritional value  
They're high in fibre, calcium  
and can ward off disease  
They also help ease constipation

Being regular can help clear your mind  
You won't feel dizzy or confused  
Then I should stop eating chicken  
Yes, that's right  
My aches and pains...  
Can you stop them?  
Of course. You could have  
what's called Panic Disorder  
That stems from your own imagination...  
...from your inner fears,  
from your mind  
Or it could also be genetic  
When you fell out of bed  
onto the floor...  
...it might have triggered  
some latent diseases to resurface  
Will you give me some pills?  
Yes, but let me take  
some more blood tests...  
...to determine the exact cause  
Hold on a second, Doctor  
What is it?  
Boil these roots and drink them  
They'll give you a kinder heart  
But I'm already kind to all my patients  
These roots also help to reduce...  
...inconsequential thoughts  
Bad, inconsequential thoughts  
gather in our brain  
Drink this and you'll feel better  
I see...  
It also reduces your memory  
Reduces my memory?  
If I drink it...  
...then I won't remember who you are?  
That's OK. We each have our calling  
We have to follow our own paths  
Take him, for example  
Sakda, tell the doctor...  
...about the asthma...asthma  
His mother has had asthma  
for some time  
Sakda, tell us about her condition  
Tell me about your mother's asthma...

...so I can make her better  
How long has your mother had asthma?  
Rinse your mouth  
I prefer it off  
Open your mouth  
I'd like to rinse my mouth  
Just a second, Doctor  
Open your mouth  
Would you like some tea?  
Where are you two going?  
To have lunch  
Good. Keep walking.  
Maintain your distance  
It's OK. I'll catch up  
OK, I've dialled  
What a trendy ring tone  
My girlfriend set it for me  
Pretty, young Joy?  
Hello  
Be careful. These steps are old  
Army doctors have to do their rounds  
down here every Friday  
Just make sure it doesn't affect  
your other cases  
The basement is reserved  
for military patients...  
...war veterans and their relatives  
Everyone is a relative  
I know. Small country, huh?  
Oh, there's another way down.  
At the fork just now, take a right  
Where's your father, Off?  
He went to get the X-ray results  
You're looking better  
Lower  
Try it  
Lower. More. More  
Be patient  
Very good  
How's everyone back home  
these days?  
Your old neighbours  
sold their house and moved away  
They sold it?

- Where did they move?  
- To Cha-am  
I see. What about your sister?  
She's living with her boyfriend  
I see. And how about you?  
I'm living with her as well  
I see. What rank are you now?  
First Lieutenant  
- Lieutenant already? That's pretty fast  
- Yes  
You used to be such a naughty boy.  
Very naughty  
You used to sling mud at my house  
I'm really sorry  
It's Dr Nant  
- This is Dr Nant  
- Hello  
This is Dr Nohng, the haematologist  
We were just saying it's rare  
to meet a male haematologist  
That's right. Why did you  
decide to specialise?  
My sister has alpha thalassaemia  
So I had an interest in this field  
And you can take care of her?  
Then you must carry the gene as well  
That's not always the case,  
you have to do a blood test  
I've checked. I carry the gene  
- Oh...  
- Really?  
Would you allow me?  
Sure  
Is he pale?  
- Not really, Doctor  
- Really?  
- Do you feel fatigued?  
- No  
- But you can't be sure  
- Right  
There are active and passive carriers  
That's why I always say...  
...obstetricians live with birth...  
...oncologists live with death...

- ...but haematologists live with suffering  
- Most are women  
- Because blood diseases can't be cured  
- They can't be cured  
The patient suffers a lot  
What are you doing, Doctor?  
Isn't it a bit early for that?  
She knows what to do. See?  
What's this, Doctor?  
There are three of us  
- I'll get it  
- You don't have to help her  
- Did you go to the Red Cross Fair?  
- Not yet  
It's quite extravagant this year  
with lots of bands performing  
He won't go  
- There's no Karaoke  
- That's not true  
Don't call me an alcoholic  
I have to go on TV this evening  
She's a guest speaker  
on public TV every week  
It's always like this  
I've gone on TV a lot...  
...but I'm still not used to the cameras  
I don't drink much,  
just enough to get me tipsy  
- As always  
- That's why you look so nice today  
I have to prepare my own wardrobe...  
...because public TV  
doesn't have enough money  
I try to help, but their sets  
are so old-fashioned  
I asked them to use a blue screen  
and matte in flowers...  
...but they wouldn't take my advice  
Oh, Dr Neng, come on in  
There are staff outside  
waiting to use this room  
Really? Tell them to come in then  
We're just chatting  
They've already left, Doctor

Really? Then why don't you join us?

You, too, young man

- Come inside

- Off, come here

- Come in

- Are you appearing on TV again today?

Yes, in the evening

- Is this Sant's son?

- Yes

- He's good looking, huh?

- He's my patient

I see

- What's wrong with him?

- Carbon monoxide poisoning

Isn't he better yet?

Not yet. I've been treating him

for several months

That's strange

Do you mind if I take a look?

- What are you doing, Doctor?

- Chakra healing

I channel energy from the sun

The top of his head is a Chakra centre

I'm going to transfer my energy to him

I've seen this done before

Close your eyes

I want you to imagine a picture...

...of yourself walking through a forest

There is a large waterfall...

...and a crystal-clear stream

The water is very cool

Try raising both your arms

Slowly. Slowly raise them

Take both hands

and dip them into the stream

Dip them in

Now both your hands...

...will suck up the water...

...the water from the stream...

...up into your head

Into your head...

...and all around

The water inside your head...

...will wash away everything...

...and vaporise into the sky  
Right, now, you have a fresh mind  
It's clear...  
...as clear as crystal  
Your mind is refreshed  
You have a fresh mind now  
OK. Now lower your arms  
Let's see. Open your eyes  
How do you feel?  
- Better?  
- I didn't feel anything  
For chakra, don't your hands go here?  
Only if you get a massage  
and a hand job!  
But isn't this what they showed us  
in the seminar?  
I think you must be confused  
- What?  
- Here, have a drink of this  
- Can I be excused?  
- It's OK  
Let him go, Doctor  
I've tried this waterfall trick before  
Really? Why didn't you tell me?  
Are you selling Red Cross T-shirts?  
Yes, this year we have two styles  
- Very nice. How much are they?  
- 200 baht  
Can I see your racquet?  
You could join the national team with this  
Good thing she didn't scold you  
Who brought you to the hospital?  
My dad  
Does your girlfriend visit you?  
Is that a tattoo on your neck?  
Can I see it?  
Open it more  
Pan...  
Panda?  
Pandara?  
Pandora  
I see. Pandora  
Is it the name of a band?  
Still studying?

Not right now  
I was working in a car factory  
Japanese cars?  
But I've stopped working  
I've planned out my life  
But it'll take longer than for most people  
A year longer  
What do you mean?  
Well, my brain is...  
Maybe in my next life  
What will you be in your next life?  
Human, I guess  
A man or a woman?  
A man  
How come?  
In my last life, I was also a man  
How are you feeling, Off?  
- Hello, Doctor  
- Hello  
- Where is Dr Neng?  
- Inside the room  
Hey, when did you get here?  
A while ago.  
I've been watching you  
Been following me?  
What is it?  
Who did you buy this for?  
Is it for me?  
But it's too big for me  
Do you want it?  
Look, my palms are sweaty again  
Are you tired?  
From what?  
From kissing  
Wow, you can see  
my house from here  
- Really?  
- Yeah, it's over there  
Next to the tree by the round building  
I see  
Remember my company trip last week?  
We toured the new plant in Cholburi  
- It's very large  
- What's that picture?

It's nothing  
I'd like to move there. It's so modern  
It looks good  
It's so hi-tech, like a brand new city  
They're also building a hospital  
You want me to apply for a transfer?  
Would you?  
When does your company move?  
Probably sometime next year  
Your entire department?  
Won't you go?  
Nohng...  
Don't you have English lessons today?  
It's close by the sea, too  
Don't try to tempt me with nature  
What?
