# Warbirds

By Kevin Gendreau

Spring 1945. World War II.  
Allies advancing Europe  
trampling German war  
machine in its unstoppable  
progress towards Berlin.  
But while fighting in Europe closer to the  
end, the war continues in the Pacific.  
American and Japanese  
forces fighting in  
the air, at sea and in the  
countless small islands.  
The battle lines are  
constantly moving.  
At one nameless  
atoll, unexpected  
the enemy is waiting for your  
turn on the battlefield ...  
3 months later ...  
-That was well captain, -Can we  
go back to the stomach now ?  
We have to try this baby  
before our guys get it.  
If you say so.  
Just remember, you  
break it, you pay it.  
The keeper has act again.  
one of these days going to put one  
of these planes into their parts  
I'm just looking out f  
or all of us as you know  
shut up and grace  
- okay I was thinking .  
- That's not good.  
No really I've been  
giving it some thought  
All I'm saying is this...  
Switches the planes  
where they are needed.  
And sometimes, like now,  
we fly the first plane.  
Right? - Aha.  
I think that if we are the first crew,  
then we need to give him a name.  
You want to give the

name of the plane?  
Will only call the  
plane by yourself.  
Will the plane called the huts?  
And why not? Is there  
a better name?  
Viki, Lena.  
- Hold on  
Roger that I wonder what he wants  
to name the plane after her  
Roger that  
I'm sorry honey, the captain  
says he will not be able to.  
Prepare for landing.  
Fools.  
Ready for landing Keeper  
Roger that Nicki told on girls will all be  
wearing grass skirts before you know it  
Welcome to Hawaii, ladies.  
Roger that  
Captain ... - Say, Viki.  
You must report to the command.  
We should be ready to wait.  
It will not be good news.  
- Never.  
Betsy, come with me.  
girls if the brass  
hats come by remember  
just so that's what I'm  
saying like to see  
Of course, Captain.  
Come in  
Sir, Maxine Vest, Women Air  
Force pilot, is reporting.  
Miss West, this is Colonel Toler.  
- Colonel.  
Ms. Vest.  
B29 was delivered  
as ordered, sir.  
Keep this document. You need  
to take them and 10 th.  
The 10-tu? Perhaps Colonel knows we're  
flying from Wichita to Lombija.  
With a rather nasty weather.

You'll fly again.  
As soon as the plane is  
supplemented by fuel  
You and your team you'll  
fly on a modified B29,  
Colonel Toler, its  
people and cargo,  
the airport, and 10, where you  
will receive further instructions.  
Cargo, sir?  
The burden and mission of Colonel  
Toller are a military secret.  
I understand, sir.  
You will be under the  
command of Colonel Toller.  
Understand? - Yes, sir,  
Moving for an hour, I  
propose to inform the crew.  
I understand, thank you sir.  
What happens? - There is  
nothing more than a holiday.  
This is madness, kidnaps a pig.  
I can not fly in the storm.  
Viki, Toller say that we need to  
bypass the storm, we are overweight.  
I see.  
Colonel, Captain says  
we must change course.  
Not. - But, Colonel ...  
There will be no change  
of course for nothing!  
Tell that to Mrs. Vest.  
Captain, the Colonel says there's  
no change of course for nothing.  
I see.  
It's getting worse, Captain.  
- Son of a ...  
We have to change course.  
Betsy, take control and  
maintain a straight line.  
I'm going to explain  
to the colonel.  
Tell him in my name, captain.  
Viki, find a place to land

until the storm passes.  
We get out of the storm.  
Colonel, before  
you say anything,  
consider insistence on suicide.  
We can rise above the storm.  
I need to land.  
If you still can. There  
are no other options.  
What was that, goddamn it?  
There is a good chance to  
land in occupied territory.  
I can not let the enemy  
grabs our cargo.  
We have no choice, sir.  
Captain, something flying past us.  
Something great.  
Looks like we have company. In this case it is better to  
finish at the bottom of the ocean than in their hands.  
Stay on course.  
Murphy, get ready!  
Did you feel it? Be  
careful with that enemy.  
Find me a place to land.  
- Do you have orders, Miss!  
You really would  
shoot me, Colonel?  
Lena! Lena, honey,  
can you hear me?  
Lena, wake up!  
- Captain!  
Wake up! - Captain!  
She is gone Captain.  
She's dead.  
Max ... - Position for  
emergency landing.  
What happened there?  
Are you all right?  
Lena is dead. - What?  
And now together. Pull!  
Did you see what hit us?  
I have no idea, but I  
know it was not a plane.  
That! - We made it!

We have not pulled out.  
Running out of fuel.  
Come on, we must  
somewhere to land.  
We're in the middle of nowhere, Max.  
No dole nothing.  
What attacked us  
came from somewhere,  
There must be some  
place, the last hope.  
One island!  
Thank God. - Last hope ...  
Remind me to sometimes  
take to the track to bet.  
We're going too fast for landing.  
We'll have to make a circle.  
Viki, tell everyone that  
bind, We'll be landing.  
Done. - I understand.  
What happens? - Sit down, sir!  
Please, Colonel. Trust  
the captain about this.  
We believe.  
Damn, we lost and others.  
Well, this is going to hurt.  
Hold on!  
Damn it, do not betray  
me now, we will succeed!  
I promised myself that I  
would die happy in bed.  
I do not intend to  
break that promise.  
Hold on!  
This will be it through  
the eye of a needle.  
Help me to stop him!  
I told you so! - Impressive.  
Congratulations, you have  
succeeded despite the poor odds.  
We have avoided the pan. Let's see  
if we have fallen into the fire.  
I found this. Take it.  
We'll watch each other.  
- I understand.

Sergeant Li, Miss Smith!  
Let me see your grenade.  
Miss Smith ... - I'm huts.  
Do you know how to use this?  
I know. - Okay. If it  
encounters a stranger,  
I want to make the catch and  
throw them on the plane, okay?  
Yes.  
The explosion will destroy all around.  
I'm counting on you.  
You'll be fine.  
I do not think there's someone.  
Maybe just an animal.  
I not wered.- Good. You will  
need us to take us back.  
Okay.  
Captain, have you seen  
the side of the plane?  
Yes. What you could  
do it on the B29?  
And if there are more?  
Can it be fixed? - To correct?  
Should not the first  
to find what we do so?  
It was not a Japanese plane.  
Thank you, though I have  
no experience, I realized.  
Whatever it was, it does  
not change our situation.  
We need to get off. Is it  
possible to sustainably?  
I have no idea. Parts  
of the problem.  
No luck, Colonel.  
Okay. First things first. Check  
for enemies on the island.  
You and your girlfriend stay here  
and repair the damage to the plane.  
You'll be safe here. - We  
do not need security.  
My girls have received the same  
training as the male pilots.  
They can take care

of themselves.

After what happened last year, we must do something.

I think confusing orders with options.

Just advise colonel on the resources under his command.

Well, Miss Quigley will remain with Ms. Smith to repair the damage.

done

Betsy, I've got to know what it takes to take off.

Aye, aye, Captain.

Keep your weapon with you and be close to the aircraft.

Watch the sky.

Before you ask, I'm staying with you, Captain.

That's what I thought.

Stay close.

Spread out or stay in sight.

We will look for evidence of the presence of the enemy on the island.

Fuel, medical supplies and parts for airplanes.

Possible sources of water and food.

You do not have to say how dangerous it is. If you see any movement on the ground or in the air do not think, shoot immediately.

Here we go.

This place is creepy. - Quiet.

What was that? - They call him the wind, silent.

For God's sake!

Here someone.

How he got to the tree?

Colonel, this is a Japanese uniform.

Well the answer to one question.

Proceed with caution!

This is bad, Marv.

- You worry too much

Radio is destroyed.

On a secret mission we have.  
We will not call for help.  
We landed in an empty enemy base. At least I hope  
it was empty. Okay, maybe empty. Too scared.  
I guess you're right. Cheer  
up, on a tropical island  
we with 4 beautiful women. When  
the sun comes up tomorrow,  
the sky will be blue  
and me in paradise.  
Just think about it. This  
is no time for romance.  
Who said anything about romance?  
Son, enjoy life whenever  
and wherever you can.  
Life is too short.  
Damn, and it's shorter.  
Not good.  
Maxi, calm down.  
Will not be able to.  
- Colonel, if you propose  
Calm down, things are not  
what they look like.  
I found the runway with  
a lot of empty Zero.  
I understand. Murphy ...  
Pull slowly and cover  
us background.  
Make sure that there are no  
more of these friends there.  
I see.  
This is the captain. That any  
evacuation would not be here.  
A no planes would  
not be left behind.  
So, whatever happened here  
was not the usual battle?  
That's right.  
Put the gun down and  
let the girl, now!  
What the hell was that?  
Enough of this shit, give up  
or I'll blow your head off!  
Shoot the first one to move.

But sir ... - They did not  
fire a single bullet ...  
I think you do not  
have ammunition.  
Is not that right?  
Capture them.  
How is Murphy? - We have to stop  
the bleeding and get to safety.  
Who knows when it will  
reappear miracle.  
Go back to the plane.  
Take a torch for protection. He  
used it when we were attacked.  
Li and I will find a comfortable  
accommodation for our new friends.  
Ms. Vest, go with them. And  
please, no discussions.  
I understand, but if  
you need to call.  
At ease, Murphy.  
They make you problems?  
- No, sir.  
Occasionally something babble but I  
think it is happy that they are full.  
Do not underestimate them. They  
succeeded where their comrades are not.  
And a few months. They  
must be capable of.  
I see. Will we soon the island?  
We are working on it.  
I expect to find more tombs.  
What miracle does not leave  
anything for burial.  
There's a time for everything. For  
each question in heaven.  
time to be born and a time to die.  
Time to plant and a time  
to harvest planted.  
Time to demolish and a  
time to build.  
Time to weep and a time to laugh.  
The time for mourning and  
a time to dance.  
Time to disease and

weather for loss  
Time to stay and a time to go.  
During the war and  
times of peace.  
Some flights soul.  
Cables are broken,  
damaged two engines  
Some cables are damaged.  
But the good news is that there  
are parts of the island.  
We can sustainably plane  
and fly out of here.  
When? - 4 to 5 days.  
Unacceptable. - That's  
the thing, Colonel.  
And at the time they are not  
included outgrown Canaries.  
What was that, Captain?  
I have no idea. Like  
something out of King Kong.  
And there are more. One is not  
enough to destroy the base.  
You heard those screams last night.  
We need to get out of here.  
Radio the plane is correct.  
We can call for help.  
Can not. The mission was a secret  
environment full of enemies.  
We can not risk it. - We  
have no other choice.  
Maybe there is something.  
Japanese planes. - I  
do not like it, Bets.  
They have 20mm cannons for defense.  
They're too vulnerable.  
Explain.  
We blow up one of them.  
Take off all unnecessary.  
Leaving only a reservoir,  
control and wings.  
We could get to Australia  
for assistance.  
Ms. Vest is right. It would not  
be raised from the ground.

The screaming stopped at dawn,  
which means love at night.  
Pokretenjem engine and takeoff  
to attract their attention.  
Claws those things are  
almost growled B29.  
Zero would cut up like paper.  
How much ammunition  
they have ZERO?  
There are many, but there is no  
ammunition for rifles and pistols.  
Colonel, we need only  
one stripped Zero.  
You could pick it up in  
the air ready to fight.  
The rest of my crew  
would fly to him.  
This could be good.  
If all goes well, they would  
be here for 16 hours.  
When I say that, I do not think  
this is the best solution.  
I'd rather wait to raise  
B29 into the air.  
The decision is yours.  
Accepts offered.  
Do what you can.  
I'm glad you said that. I see.  
Betsy, organize Zero and  
let Viki help with fuel.  
I see.  
Colonel. Just a minute.  
Yes, Miss West?  
I've already lost a crew member  
for something from the comics.  
There are chances to  
lose another one.  
Do not you think we deserve knowing  
why it is so important to your cargo?  
I understand how you feel.  
But let me once again  
refer to the facts.  
This mission is top secret.  
Highest priority axes.

And what is the nature of my cargo is concerned, is not none of your business.

I do not care for your lack of cooperation.

But if you and your girlfriend try to find out what is my mission ...

I will not hesitate to kill you on the spot.

I see.

It will be a shame if this man stood in front of the propeller in motion.

What do you think they are?

Dinosaurs.

Honey, you're your comics you destroy the brain.

Dinosaurs are extinct. - Do not.

Nobody's seen. There are more.

That's what they said about dragons, and yet it is the type found on that island.

You mean the Komodo dragons?

They are not really dragons.

They look like they did.

What do you think, Captain?

- I have no idea.

I'm just glad that it looks like the fire is dismissed.

Viki, what do you have?

- Just a moment, keeper

It is possible, but there is a catch.

To ZERO reached their destination, they must be stripped to the bone.

Even when we take weapons and all unnecessary ...

a pilot may not weigh more than 50kg.

Even if everything off?

That's right. - I'm a heavy 62kg.

Would I have been able to reach you?

I would not know. There are no guarantees.

There must be some way.

- Yes, I am serious 50Kg.  
Heavy 50Kg and I can fly.  
No, you're not ready for this.  
With all due respect, I did.  
You're on a whole crew  
of at least flown.  
It is a long flight and  
without those damn flying.  
You're a brave girl, but I do not.  
I will.  
It is the best choice because of the  
weight. You know that, Captain.  
I said that I will not fly.  
The thing is over.  
Ms. Vest, Girl's  
our best chance.  
Is that an order, Colonel? - No,  
of course, you know better.  
Captain, huts need to  
fly, and you be escorted.  
Huts years to zero.  
Betsy, Vicky and I  
are flying escort.  
You'd better fail or you'll  
become flooded Mom butt.  
You understand? - Yes madam.  
Okay. We fly at dawn.  
Thank you, Colonel. - Ms. Vest.  
You'll make a hole in  
the floor, Takase.  
Something is bothering you?  
This was not how he  
imagined his end, Captain.  
Do you feel that you  
are approaching death?  
You know it would kill us. If we  
are to die, let us die in battle.  
Too fast prigrljuje death.  
Our execution is not certain.  
With all due respect, sir,  
how can you say that?  
You know that the  
Americans are relentless.  
You need to learn patience.

As our captain.  
He is waiting to see if our  
enemy to destroy one another.  
Patience, for the sheep. I will  
die in battle for their country.  
Do me a favor, Takashi.  
Do not hurry to die.  
The young soldiers are still  
rushing to their deaths.  
This is the tragedy of war.  
Hello. - Hello.  
I'm Vanesa. My friends  
call me Huts.  
Nick from home, so ...  
- ice cream cones.  
Their slogan was ... Huts,  
handsome, cute, fun to eat.  
Sorry, did not mean to ...  
I am Li, John Li.  
They call me a Li. - I know.  
I was wondering...  
Is everything all right? - Yes.  
I have to watch them, but  
I have it under control.  
I bet it is.  
Well...?  
I just wanted to ...  
I do not know if you know,  
tomorrow I'm going on a mission.  
I never really ...  
Namely...  
I just wanted to know what it  
feels like to kiss you ...  
before I go.  
Huts ... - I gotta go.  
Thank you.  
I like you.  
You too.  
All right, ladies,  
line up in formation.  
Betsy and I protect hips,  
Viki protects the background.  
Done. - Understood.  
Captain, is this time

really necessary?  
Done. - I wish I had not over  
Captain, the bandits to 6 hours.  
- Understood.  
Viki, stay with huts, Betsy  
and I are going to attack.  
Only peaceful huts,  
progruemo you through this.  
I understand, sir,  
but come back soon.  
Do you have a canary  
in the tail, Betsy.  
I see.  
You are mine. He was  
just busted girl.  
Stay calm. Do not freaking.  
When it could so. - What  
does it say, sir?  
Viki!  
See, stay calm and  
keep the course.  
Viki. - Do not worry.  
You are mine!  
I told you not to worry.  
Fine, but do not wait  
for more last minute.  
Huts, Betsy and I are  
going back in formation.  
Aye, aye, Captain. Thank you.  
Looks like we'll  
make it, Captain.  
No malerii, Betsy.  
Captain, at 3 hours.  
Damn, I told you, Bets.  
We will not succeed, I order the  
return to the airport immediately.  
But, Captain. - Without  
debate, huts.  
Just 4 100 of them.  
On landing, immediately.  
Move your butt, ladies.  
Here they are.  
Captain, wait. I'm  
going with you.

No, Betsy. Rinse huts to safety.  
I'm coming for you.  
I'm hit! - How bad is it?  
They can not land. - Betsy?  
Can, Captain. Be careful.  
Bring huts house.  
I'll wait for you. Done.  
They will not be  
able to, dammit.  
Huts in 12 hours. Above you.  
Not!  
Nothing we could, Captain.  
- Tell that to the huts!  
Max ... - Enough Betsy.  
It's an order!  
But that is not right  
and you know it.  
She was still a child.  
What are we going to do now? How  
to get out of this nightmare?  
You can not.  
Do you know English? - Obvious.  
Bring him here, Murphy.  
I studied at Brown University in  
the United States. Class 138th  
I can not tell you  
how impressed I am.  
Identify slide, duck I'm Osun, an officer  
of the Imperial Japanese Air Force.  
And others know English?  
- Unfortunately no. Just me.  
You do not ... - That's  
enough, Miss Quigley.  
What the hell happened here?  
Come on, you spoke to  
did not want to share.  
There is no harm if I tell you. Excavation  
of the tunnel on this island ...  
a group of my people discovered a cave  
with eggs of these primeval dragons.  
What we are more destroyed,  
the more of them appeared.  
We could not call for help because it  
would not come as soon as possible.

We found behind enemy lines,  
obsessed with monsters.  
We tried several times  
to escape, as you are.  
But all attempts failed.  
Destroy all you lift into the air.  
- Wait a minute!  
You knew that we would not  
succeed, and you have not told us?  
Would you believe us? Ms.  
West, you are the enemy.  
What you are is less, the better for us.  
- Son of a bitch!  
I'm sorry about the  
death of a young girl.  
Also sorry for the death of the  
50 young people from my company.  
This island is a nightmare,  
as you said, your sergeant.  
But I do not have an obligation to help.  
You are still enemies.  
Then you have no reason to  
not execute immediately.  
You will not do it. It's  
not in your nature.  
Try me. - We'd be dead,  
that the colonel did not think  
we would be beneficial.  
Calm down, Miss West. We  
might still be of use.  
But I promise you that when the time  
comes, you can pull the trigger, right?  
Agree slide, duck I have a few  
hundred questions for you, Captain.  
You'll have to wait. The day was long.  
I'm tired.  
Can I go back to my people?  
- Give it back there, Murphy.  
All the rest. We  
continue at dawn.  
Murphy, you first stand guard.  
- Yes, sir.  
This change in 3h.  
Keep the fire.

We do not want visitors tonight.  
Go to sleep. Dismissed.  
Captain? - Say, Takashi.  
Should not we call that a plan?  
- For what?  
Getaway! - I have more important  
things on his mind than escape.  
Captain? - The colonel  
is an unusual man.  
Such a person always has a mission,  
and I would like to know that.  
But monsters? - We  
survived monsters.  
Our problems are coming to an end.  
Think, Takashi.  
The Americans brought  
our means of escape.  
When you fix it, swollen by  
and leave them on this wall.  
Only the three men against us,  
and one of them was injured.  
A wife? - They are not a threat.  
Means of escape is our wish  
that whenever you use it.  
But before we go,  
I want to know what led to the  
colonel to our little home.  
I will not be solved so easily.  
- I almost did.  
May I ask, why Colonel sneaking through  
the jungle in the middle of the night?  
I need to know how many  
of those creatures.  
Looking for their nests.  
You said there was an attack on the other  
side of the island. That's where I went.  
I'm going with you. - It  
is dangrous Miss Vest!  
Do not be afraid, Colonel,  
I will keep you back.  
We must be close.  
I'm sorry about the girl.  
She had a name. Her  
name was Vanessa.

Her friends cats.  
- I'm sorry about huts.  
The decision was difficult,  
but I had to try it.  
You need to move on.  
- That's right.  
What is it? - See for yourself.  
Careful.  
There are hundreds of them.  
Colonel ?!  
Hold me!  
We got company. - I  
noticed, Colonel.  
Time to go. - I understand.  
Are you OK?  
You will not be happy until  
we all get hurt, right?  
Incorrect.  
Is not it? I've already lost  
two members of my crew.  
Two good and devoted wife.  
What am I saying?  
Huts was still a child, and  
we are almost joined her.  
What are you doing that's worth all this?  
- I can not say.  
If you have not noticed, we are  
in a very unusual situation  
from which we may draw.  
If you can not get out, you  
will not complete his mission.  
I understand that it is a big risk,  
the price is great, amoda be higher,  
All I can say is  
that it is worth it.  
You have my word.  
Colonel, this is not enough to fight.  
We need to know what we are fighting.  
Sorry, but your  
word is not enough.  
That's all you'll get.  
Let's get out of here. You  
need to fix the bomber.  
We can help to rectify

the plane refueled.

And why should we believe you?

Desperate people take  
desperate action, Colonel.

We want to survive, just like you.

- Not.

They Canaries multiply.

There were only a dozen when  
we were first attacked.

Listen to their shouts, they  
must have been a hundred.

Every lost moment is critical.

My people are trained pilots  
and mechanics, we can help.

I said no.

Colonel Toler,  
stupidly stubborn.

Murphy, put it there.

It could be the difference  
between life and death.

I do not know what  
you're talking about.

You did not fight against them.

You can not trust them.

even to help us, not to take them with us?

- Yes.

Colonel, I know we're at war,  
but we will not go to the wall  
If we all cooperate, and transportation  
of the plane is your mission.

They want to hijack a plane.

- I know, sir.

We just need to keep control of the  
situation. - You took these people to us?

There are seats on the plane, if you  
help us, have earned their places in it.

And I'd love to see them in prison.

- That's your opinion.

In the end, the decision is mine.

- I understand.

But my point is still valid. The sooner  
we get off this rock, the better.

We could use them. - Well,

we will use them.

But if you cross the  
border, I will kill them.  
I do not promise them  
off the island, right?  
I Miss West, if something goes  
awry, blood will be on your hands.  
No, from my point of view.

**FKO:**

Looking for something, Captain?  
Just curious, Colonel. Sorry.  
What are you looking for?  
- We'll play this game?  
Radim what would you  
do in my situation.  
I think I found something  
interesting, if I tell you?  
If you ever catch the plane, you will  
not hesitate to blow your brains out.  
Do you understand me, Captain?  
- You made your point, Colonel.  
Colonel, commands are corrected  
and patches should hold.  
Damage to the engine was repaired, but I  
can not guarantee how long it will endure.  
Takashi popped radio  
from Zero, but we  
they should be used for a  
direct connection with ours.  
The rest is up to the  
middle of some controls.  
We should be ready  
by tomorrow night.  
Do we have a problem.  
There is not enough fuel  
for the escort and bomber.  
We will reach our destination.  
There are some gas on the  
other side of the island.  
From Aragona. - We've seen it.  
It is surrounded by  
our flying friends.  
Unfortunately, this is  
our only alternative.

It seems that risk again.  
There is a chance that  
get there without  
attracting their attention.  
We truck to the edge of the beach.  
- I'd like to help.  
I'm sure you'd like,  
but it is better  
to leave you under  
supervision to Murphy.  
Murphy? - Yes Sir  
Please escort the captain to  
the POW barracks. Captain?  
Would you go to g. Murphy? - Of  
course, Colonel. Good luck.  
We start in the morning  
because you love the night.  
Let's hope that by  
then pospavati.  
Let's all but Murphy and navigator  
to guard the prisoners.  
You know what we're dealing with,  
be quiet and oprezni.- understand.  
Back in the lion's den, Betsy.  
Start! Go!  
Go! I'll catch you!  
It's an order!  
Come on!  
Turn it on! Move on!  
Be careful where you shoot!  
- Sorry!  
Can a little help, Bets?  
Colonel? - Go Li!  
Shit!  
For God's sake!  
Step on it!  
Whatever happens,  
just keep going!  
Li!  
This is for you, huts. The  
sweetest kiss of my life.  
They are to escape.  
- That's right.  
I'd like to think

that this Toler  
you do to help us, not only  
because of the mission.  
Even so, it would  
probably be denied.  
Toler and Li died we went to the wall.  
Let us not fail them.  
Stay in the truck, Betsy.  
The situation has changed.  
This time we have  
the ammunition.  
Tell your wife to drop the  
guns and get out of the truck.  
Shoot, Captain! Shoot the dogs!  
Enough!  
Do it now, or both die.  
Stay there, Bets!  
Where's the colonel and another soldier?  
- They're dead.  
It's over. Put the gun down,  
and no one will harm you.  
We are not barbarians.  
We are not Americans.  
Let her go, or I'll kill you.  
Then you will all die.  
Put the gun down.  
Okay.  
I do not play games.  
Too much is at stake.  
More than you know, Miss West.  
It is no longer just  
a survival issue.  
I give you one more chance to  
surrender oru je.- Go to hell.  
To try to avoid.  
Now it's over! - Whether?  
I know that is your mission.  
- How?  
I participated in the project FCO to  
see if it has succeeded or failed.  
I do not know what kind of bomb ...  
- It not ever say that.  
Extermination. Genocide, killing my people.  
You must stop ...

That's it, Captain!  
Knock it off!  
I'd rather die like a soldier,  
but from your device.  
I said, stand down!  
On behalf of the spirits  
of the dead  
and the legacy of Rioja, I promise,  
will lead the charge!  
It was still dangerous.  
- He was dying!  
I died like a soldier. - You  
killed him in cold blood.  
Did not you intend to few  
days ago, Miss West?  
Sorry, I should have let  
you pulling the trigger,  
Tell me, what is your mission.  
What's in the area  
bomb, or you'll never  
get off this island!  
Ms Seized your team!  
You do not have such powers.  
You're a civilian.  
And you do not go  
out without us.  
What's in the area for bombs?  
- Bomba, Miss West.  
Do not play with me. This is  
not just an ordinary bomb.  
This is the atomic bomb. The most  
powerful weapon in the world.  
Take it to a city the size of New  
York and turn it into ashes.  
We'll throw it to Japan  
and end this war.  
And if he fails, we'll  
throw some more.  
The real is it? - Yes.  
I was on the plane.  
So this is meant by "genocide".  
You will kill thousands!  
- Hundreds of thousands!  
We'll save countless

American lives.  
Maks! - Let her go.  
All these people ...  
and the island full of monsters.  
Time to go.  
Everything is ready?  
Are you sure you  
want to at night?  
These creatures are propagated around  
the clock. It is no longer important.  
We're ready to go, Captain.  
- You do not need this.  
Can everyone in the bomber.  
Betsy and I, accompanied by the best  
guarantee that we will bomb go from here.  
After all, it is our mission.  
We will be safer than in the ZERO B29.  
He would have given us a better shelter.  
This is our best chance,  
and I want to leave here.  
You will get to the base 10, and the  
Zero, Betsi.- not birini these for us.  
As long as we stick close to  
you and mark our position ...  
we will succeed.  
- It's too big a risk.  
It seems that many  
reksiramo lately.  
Remember what happened to the huts?  
Last chance to fly with me.  
I can not, Captain. In  
addition, I saw how you fly.  
Okay.  
It was an honor to serve with you.  
- The honor was mine.  
Call me madam again and  
I'll rip your head off.  
Happy landings, girls.  
Ms. Vest. - Colonel?  
They are good soldiers. We  
should be proud of them.  
Every minute of every day, sir.  
Come on, Colonel.  
Waiting for us the sky.

Let's go girls. Stay close.  
- I understand.  
Are you at the point, Colonel?  
- I confirm.  
They come at 6 o'clock. There  
must be thousands of them.  
Stay calm, Betsy, and follow me.  
We'll take their numbers.  
We're coming, Captain.  
- Stay in formation, Betsy!  
Colonel, you have the honor.  
- With pleasure, Miss Vest!  
This was good.  
I still come. Let's get started.  
- Permission granted. Give 'em hell, girl.  
We have company in 3 hours, above.  
- I understand, Colonel.  
Not! Damn! - What happens?  
The fourth engine was again  
on fire, Colonel. Not good.  
Viki, these things are faster  
than lightning. Are you OK?  
Yes. Damn.  
New tactics. I'll be the  
bait, you follow me?  
Admittedly, I follow you!  
I just hope that you're as  
good as you think I am jesi.-.  
Do not get too close!  
Somehow suddenly too quiet.  
- I beg your pardon?  
Do not scratch it, baby.  
- I understand.  
Just a walk in the park. Are  
you going again? - Can.  
How are you doing, girls?  
We stick to, boss. But just barely.  
- Take care.  
Betsy, change places!  
Immediately!  
Viki! - Viki? Betsy,  
what's happening?  
Were seized Viki and I were on the tail!  
- I am coming. Hold on!

You can not, Vest.

- We'll be back!

We have to continue, a bomb in the first place. Nothing else matters.

We'll be back! - Continue mission!

It's an order!

I can not hear you, Colonel! Too much interference on the line!

Betsy, what's happening?

Vest, turn around now!

- I will not leave!

She's done. Nothing can.

- Not. He'll pull through.

He's a good pilot. I will not leave you alone on that island. We'll be back.

Vest, what happened?

Something hit us, check.

- I'm on it!

Ms. Vest! - Colonel, what hit us?

Bomb was dropped.

Climb up as fast as you can!

Colonel, are you all right?

Contact!

God, what have we done?

- Sign me up, Captain.

Betsy? Betsy! How did you get out from there?

I pulled out of kovita and asked for you.

Looks like we missed in the clouds.

Probably so.

I think I would avoid the explosion I was not far away.

It was an ugly firecracker.

Captain, I've never seen anything like it. Never.

It looked like the end of the world.

- I know.

Is there damage to the plane, Betsy?

Are you OK?

I'm a little banged up, but I'll be fine.

There is no way to land.

I'm gonna have to jump.

Stay with me as much as you can.  
I'll mark your position and I  
will send someone to pick you up.  
I see.

Max ... - Yeah, Bets?

I thought, when we  
return to Tinigan ...  
to call the plane after  
the huts, as she wanted.

We have to force them to do so. Right?

- Okay.

I'll leave them to paint it.

- Agreed.

Thank you, Max.

It's all right, Betsy.

Just hold on and stay close.

Go home.
