Attraction

By Oleg Malovichko

When I was a kid.
My mother and I loved to sit and
watch like that in the night sky.
To dream that we are not alone.
What stars are the eyes of the angels.
Who looked after us.
But when my mother was
ill, none of them helped.
Then I realized that no one was there.
Silence. Emptiness. And cold.
All right, let's go.
Quiet.
Charl, what are you looking at?
No there is nothing.
Let's go to!
At all times, meteor
showers frightened people.
Understand that for the guests
visited the earth's atmosphere.
It was possible relatively recently.
And earlier cosmic stones, strongly
associated with "God's punishment".
Well, how are you?
Well, Che did not you tell that?
I also get yourself out, some of Albert...
And you will not say anything.
- Nothing to tell.
- Like nothing else?
How have you there, Th,
where, how, la-la-la-la.
No. Well, if I have a Romeo appeared.
I probably would have run
away from home at all.
Well yes. Only Tema sure Romeo, this
is such a car make. Do you understand?
Already we are
with you will witness
unique, astronomical phenomena.
Mironov...
Good morning. How did you sleep then?
- Che immediately Mironov something?
- Nothing! Do not sleep!
Who can tell me, where was the
last meteor rain so hard.

The risk of getting at once...

5 in the quarter.

In China.

- 76th.

Yul... And there you have

a scientific debate, huh?

The scientific debate, yes.

Well?

Google says China. 1976.

Properly Google says.

The most terrible event in human history.

It occurs when it is

faced with something...

Unknown.

Frightening.

Because of the meteor shower, it began

one of the bloodiest, the Crusades.

As a result of that... What Mironov?!

I am not sleeping. Speaking...

Google.

All Crusaders, about 300,000

people have died in the desert.

Yes. Yes...

- The brain!

- The brain!

And this despite the fact

that the meteor rain, scale,

It does not go to any

comparison with today.

And here we have it... not that...?

You're a fool?

There is no hope.

The debris burn up in the upper atmosphere.

Do not be afraid.

In the evening, everyone is

watching meteor shower. I could hear?

- Yes-a -!

- Well done.

By the way.

- What's this?

- Two tickets for the concert Korzh.

I thought you and I together descend.

But I certainly compared to your

"Alfa Romeo" - "Kzhum, kzhum"!

- So imagine variantik.

- Thank you.

- Bye.

- Bye.

All the best. Starfall evening.

- Yes-ah!

- Bye.

Goodbye.

- Let's diary assessment check.

- Himself a good student?

I'll call.

Hi.

Till.

Dad? Hello, I'm at home.

- Hi.

- Hi.

I have a couple of seconds, literally.

And you do not know where the binoculars?

Today I'll be late.

Will not leave the house.

No, we're all going to the

parking lot, but today meteorites.

And from there, everything's cool sight.

No.

Absolutely no? Maybe there

will be some good arguments?

Ofigenski convincing arguments?

Crowded at the height of the low fence.

A high percentage of drunk in the crowd.

In my opinion a sufficient argument.

Dad, well, I'm not alone. I was

waiting at the bottom of Tema.

- Artem?

- Yes.

Especially not!

Class!

Well, not that I'll hurry, just...

The next time the stars will

fall in 50 years, I guess.

I will not go, Tm.

Comrade Colonel would not let walk?

Zadolbali have their orders.

Though it would be sent somewhere.

On a business trip.

Jupiter!

So he left already. I saw him.

So I do not see a problem. Ready to
rescue the princess from the tower.

From the west came the dense layers of the
object. Now just to the north of Finland.

What is an object? Just saw.

- Large. The moves in our direction.

- Clear.

Speed?

- Speed torn.

- How is it torn? He's driven?

Not yet identified. From 500 to
900 kilometers per hour and goes.

Strategic partners have requested?

Yes sir. They say they do not.

Lithuania and Latvia
also declared readiness.

But if this thing will not stop, they
even do not have time to take off.

Raise the hooks. Missile readiness.

And let MOE, albeit also
announced readiness.

Yes indeed, today
will be something to see.

On cloudy east of the capital,
so many have come to admire
on the Shooting Stars it is here,
on the very south of Moscow.

Send here.

As you can see, many have already begun to
celebrate, this is a rare natural phenomenon.

Light remained there alone. I can not do.

She's a girlfriend, will wait.

You can at least call her, huh? You

are welcome. Well... Well... Tm.
Exploration almost there. After a
couple of minutes will mark what's what.
Technology also popped up.

Not sure, but I understood.
What language do you speak to them?
In Russian.

The chance to understand
something about ourselves.
Find out who we are. Maybe even...
Find your house.

- Do not know yet.

- Oh well.

Judging by the movement of
water masses and air fronts.

Ship attracts water. Like a magnet.

Are they us starve to take that?

According to our version, the water
needed for the regeneration of the object.

External damage to the ship
resulting in the fall,

already eliminated about 30%.

Fragment of equipment turned
out to be at our disposal,

It has the same properties. But the
purpose is not able to determine.

- Weapons?

- Or, ship the item.

In the CPT people already gather.

In the online information catapulted that
we hide the scale of the loss of water.

As if the boat does not start swinging.

Well, then you decide. Connect
your mayoralty, television.

And let each hour provide monitoring.
For our part we already solve.
By PPC drove water trucks. The perimeter of the
area of organized distribution of water.
And your this element
or fragment thereof.
What do you think to do?

And not as a specialist in
extraterrestrial cultures.
- Let go?
- Where?!
In the rear.
So. I ask, please, no offense, Colonel.
We are not here on a first date.
In the general case.
The offer is good, but
nothing will not give.
Maybe they know everything about us,
and we have nothing about them.
So, this is your element...
The only thing that we have.
What are you doing around here, Russell?
- Yes, it's there it's...
- What?
Fresher.

He knew a few phrases
of language structure.

And I said:

But the naked eye can see the color change.
About half an hour ago, we noticed that
the object has acquired a red hue.
While we were not able to obtain comments
from the Joint Information Center.
But though I doubt that
even the experts can tell
about this phenomenon, something definite.
For young people. This approach.

Even when my mother died. Not
given to say goodbye to her.
He lied that she gets better.
I just really wanted it
to happen not on your eyes.
And I thought you did
not ask what I want?
Maybe I wanted to spend the last
months of her life, by her side.
Close to the only person who understood me.
And not diskach camp.
I'll never forgive you. I got it?
The first group, to block the road!
For thorns do not produce!
- Stretch spikes!

To defend the motherland.
And here it is right.
- It was necessary to add aluminum chips.

now for perimeter does not get there.
Tell me the name of
his father's military.
Normal person are you?
One week all in Moscow, has a corruption scheme
Mutish? Before the night without options.
What is there to do?
Thin as a rake. You have a need to do?
Or do you eat it... photosynthesis?
Let's go to.
Well. Something like this.
Charl. Hi Hi. It's Charley.
This creature, it suffers, it hurts.
Yes I know. She has years to fig.
Dad says it's time to put to sleep.
Causes the...?
Kill. But I can not.
Charl family member.
We have it even with my mother bought.
And now it is not.
You like to think of my mother,
so you make a creature to suffer?
No, on the contrary.

- Well... I do not.
- What for?
And you where I'm looking, but
with feelings napryazhenka?
The sense of touch and
sight is the same as you.
I'm not talking about those feelings.
Thanks.
Loneliness.
Hatred.
Love.
Love and hate need to
overcome the fear of death.
When there is no death, no
need to love, not to hate.
Ofiget. I do this in my
status I'll write, okay?
Yulechka, and you do not want
me to present to the young man?
And... of course.
Hariton, to Luba.
Lyuba, to Hariton.
Yeah, a rare name.
Years to fig. It's time to put to sleep?
I'm sorry, what?
Quietly, quietly.
Luba. He just from Peter, you know?
And once it was a cultural capital.
Yes.
You Che done to her?
It Shilka.
If he's around, you can live forever.
Charl. Charl, come here.
Healthy eyes.
My dogs...
Wait.
What are you... Immortal?
I. Michael, tell us
about the first contact.
What exactly happened there.
Tragedy.
The tragedy of the world scale.
We hoped to find a reasonable, sane beings.
With whom it would be to engage

in dialogue. Share technology.
And faced with the ugly creatures.
At the first opportunity, attack me.
- Do not get stuck.
- What is it?
A dangerous thing.
30 minutes and he'll go look wet aliens.
Mmm! It's delicious, thank you!
To your health.
What for?
Joke.
But this is not funny.
Eat, eat, then jumped?
A?
With dad already met?
- Well yes.
- So how is it?
He was scared.
For his daughter, for his house.
I understand it.
Do not worry, Lube. I marry him I'm not.
Therefore, a blessing to the wrong address.
Well, nothing.
And here is the Pope. On his armored train.
Julia!
- Where's she?
- Do yourself.
Valentine, she's a boy.
I do not think that...
Get away.
How well without you
there was something, huh?
Why are you doing it?
- What?
- Inhale. It hurts.
Do not you of FIG?
We have a tradition.
Whenever any superior race,
trying to destroy humanity,
we all begin to smoke,
hoof to quickly discard. Do you understand?
We do not want to destroy you.
You are your own harm.
I urgently need an interpreter to space.

Do you like it here?
No I do not like.
- And where is like?
- Over there, where the slide.
Just can not go there now.
Why, do you think?
Well... There's also this thing.
Hard? Let us help you.
Of course. In five liters is not dragged.
That take less. And the soup is
cooked, it is necessary to go back.
It is not hard? Of course hard.
Cool that. Previously, there
generally no one steamed.
Now all just talk about us.
These... Journalists complete.
And throw the ball. Thank you.
So you want to always be, huh?
Well... something always will be.
Probably...
Because the military situation. And
it's not a request. You are required.
Well, it's a simple question.
Why are you standing here with a gun?
People have to protect something?
It's hard to say what?
Hi.
Do not worry, we will not last long.
We were looking for. Change is necessary.
Do not worry.
Will kill you all one by one.
You mark my word!
Everyone!
I'm not a politician. Therefore,
I will say in a simple way.
I do not like what's going on.
And it's not who does not like.
We just do not do anything.
And what are our options?
We can blame somewhere,
we can endure it all.
And we can stand up and

say:

"This is our land!" That's
all I wanted to say.
Listen, it does not... it's not...
Rags-then where are you?
They're in it in the closet.
Capture.
Turn away.
But... I too... turn away?
- You?
- Yeah.
Try.
It is generally Dad.
Speaking... Well, he's
just come in half an hour.
Can you somewhere, I do not know...
hang out in the subway?
There's just more crowded,
as it were, and safer.
No, I do not think, I
do not expel, just...
I have a better idea.
Why so much pain? Max?
Well, how do you?
An unusual, interesting, electric pulse.
Clear.
Over here no one would look for.
Concert during martial law.
When that will be more?
- Otorvmsya?
- Otorvmsya?
Che are you standing? Undress.
Wow, Tema. Look, it's yes. But...
There's nerves. You understand.
No, no, no, no. Brake. Infa is.
You're doing fine!
Almost like a man.
I am the man. We are
a branch of one tree.
- I do not hear you.
- Give me your hand, I'll show you.
Hand?
In short, count! Who saw right now!
Where are we?
It is my house.

It is almost the same as yours, but
there is no death for a long time.
Often, you're on a first date,
to his home dragging the girls?
You first.
We are not allowed to come into contact.
On Chertanovo fall, it does not touch?
We do not want you to have noticed.
The ship hit the meteor shower.
Masking out of order.
- And then we have shot down.
- Yes.
If anyone tries to get on the ship,
Saul will destroy him.
We can not allow our technology to hit you.
And what, you're there
all ready to die for this?
It's... It's protocol.
Well this is your refund "Shilka".
What's next?
We'll just fly.
Forever?
People. Curfew. We need to roll up.
But I want you to know. Many
of you lost loved ones.
Many of you are eager for revenge...
It's here.
Not hate. Now
this is particularly important.
Well. All?
It's unhealthy. Do you remember?
And I wanted to understand. Like this.
When the smoke?
When you die.
And you are not the FIG?
All.
Go.
- Yes?
- How are you?
Can meet?
- Tm, I can not.
- Ahh...
Or rather not so I do not want.
Listen. You are a good guy. I just...

Yes Yes. I drop dead, I know. But
apparently not enough... drop dead.
But... is not Che. Do not worry.
Everything is fine.
Yes? - Well, of course. I
understand everything. Not a fool.
You like it?
Yes?
Yes.
Well done.
I'll explain everything.
No!
Do not, Tm!
- Do not do it, Please!
- Rus!
- Yes?
- Do not. You also asked for!
I did!
- No! No let go!
- Quiet, quiet, quiet.
Take your hands off me!
Climb.
Do not, Tm!
No!
Do not do it, Please!
No!
Quietly, quietly.
I always knew you do not like it.
Quiet, quiet, quiet.
- Net!
- Quiet. No ori.
I tried to understand, and Th
is do you want something, eh?
Che More to do for you?
Please, let go. No!
Stay in place.
And you is not need anything.
You just traded me.
Bitch.
Tm!
- Look at me!
- Tm, he is not a man!
Tm!
What's wrong?

Always to.
Tema, he is not a man!
Give them this thing, and
they will fly away, please!
They just need to fly!
Do not people say, huh?
They are not as we thought.
They are better than us, Tm!
Better?
- Che drive?
- In place of the stand.
- From another galaxy?
- From this.
Constellation Gemini.
And we're out of Chertanovo.
What's even better than I do?
A...!
Ah-ah-ah-ah...
Rus! Rus!
Breathe! Rus!
Tema, patrol!
Rus!
Help him! Help!
Shilka not resurrect the dead.
Stand! Arms lift so that I saw!
Tm Che do?
- Collect all.
- Yeah... Yes... All...
Everyone.
And these creatures, kill Ruz.
All right.
To her.
All go. Let's go to.
We Roos in a garden walk.
All my life together.
We were once sent to the camp.
We were 10 years old. Minor really.
And there is a stormy river, open.
All were afraid to jump.
Well, I decided to show
off in front of girls.
I run and jump.
There for the wild.
Suffered immediately,

it reduces legs, cold.
And Rus, behind me jumped.
He swim Those guys do not
know how, but still jumped.
Save!
Fuck knows, Che in his head was...
He did not think too much.
You know Ruz.
As a result, I had to pull out.
A day later bellow it.
And today I lost it...
Here, many of its lost!
I have a brother, cousin.
Son of a hospital.
Thank threshold.
From a nine. Until now,
the body is not found.
And they finally did Che?!
Fence set!
Wires fastened!
Military caught with machine guns.
And to protect them, not us!
Yes that's right. Yes.
Yes, to hell with them...
They ordered. Yes?
We Che themselves at the
order not put things?
Put things!
Or disperse to their homes?
No!
And we will wait for the
more someone will be killed!
No!
Satisfied with this option?!
No!
And remember.
We do not attack anyone.
We do not need someone else's!
Yes!
- It is our Earth!
- It is our Earth!
It. Our. Earth...!
It is our Earth!
- Please stand.

- Get out!
Stop! Where are you going?!
- Where are you going?!
- It is our Earth!
You are welcome! We are the same people!
We have no right to kill!
We are the same people!
It is our Earth!
Key from the garage Give!
- Handlebars, Pete.
- Where are you going?
- I'll catch up.
- Where are you going?! Subject?!
Little time.
I can still stop. We need to let us go.
- You do not understand?
- Useless.
That's an order.
Said guard, they will be protected.
Bad luck to you.
It was necessary to Finland fall.
Silently sitting.
Forgive me. It was not to be.
You should not have come flying.
Sorry?
I have something to say not clear?
We end the conversation.
Yes, okay, good.
It is our Earth! This
is our Earth! This is our land!..
First-twelfth. First-twelfth.
We've got people.
Many people.
Citizens. Immediately disperse.
This closed area.
Immediately disperse. This closed area.
Disperse!
Sergey Ivanovich.
All. Go.
Yes. Talk.
How many?!
With Lebedev me connect.
What do you look, eh?
What are you looking at me?

Stay! Stop immediately!
That's an order!
Stand still!
You for whom the devils?
Citizens. Stop illegal actions.
Your actions are illegal.
All ahead!
Against you would use force!
Come on!
Serried ranks!
Closer!
Right flank! Closer! Five steps forward!
Hands take away.
Comrade Colonel.
The body of experts sent.
There's one more thing it was.
With them.
You've done Che, Yul?
I'm done? Maybe you've done?
Minutes of the protective space defense.
Missile Defense.
Paranoid! That you shot them down!
Who are you?
If you get close, it ends today.
Sol will blow the ship.
- We all will die. And they and we, you know?
Why do you believe him, but I do not?
Because he's with me even talking!
He is not a man! We
do not know who it is!
I am human? Can you hear me?
Why are you all talking about what to do?
Why do not you even try to understand me?
- I'm trying to understand you.
- Then give us a chance.
I know what to do. We know.
- Lebedev.
- Valentin. How it all seriously?
It means so. Listen to me.
You are there on the spot.
Act as he sees fit.
Under my responsibility!
Half an hour you have.
And what will happen in half an hour?

Half an hour will be morning.
Hopefully.
Always ready for use.
You Th crazy or what?!
You're going to shoot?!
You fool!
Do you realize what's going on?!
Julia.
Forgive me. I really want to help.
Just I was once lost.
I'm afraid.
In short, Dad. I'll do everything.
- Julia!
- Get away from me!
I would like to die. What is the difference
a minute earlier or a minute later.
Dad. Just trust me, okay?
Car keys. Fast!
Come on!
The keys!
Behind me.
- Tactical group to me!
- There is!
Run!
Get out!
They Che, already gathered to blow up?
- No. Sol waits. He will wait until the end.
Comrade Colonel. Let the question?
- Yes.
- Indeed we shoot?
- Order which it was?
- Ready-to-use.
- So get ready.
- There is.
- Neither of the application.
- There is.
Must have time.
Heck!
Love you!
Set aside. No jerks. Observed.
Julia!
Lower your weapons!
What are you doing with it?
What do you do with it?!

Water carries
out the regeneration of tissues.
With whom am I saying?!

I - Sol. Small ship study.
With me you can talk.
She is...
She will live?
Not for long. 70 or 80 Earth years.
- And he?
- Hekon had to exist forever.
But he gave his life to her.
This is not an accurate translation.
Why did he do it?
From my point of view, a
chain of random events.
With an extremely low probability.
You call it fate.
Is he one came? Where are the others?
Others do not know where he went.
Your planet is forbidden for public visit.
- Why?
- Extremely aggressive social environment.
Although close to the ideal
climatic conditions.
Four billion of violent deaths.
Over the past 5000 years.
During the same period, about
15,000 major military conflicts.
Prior to the complete depletion of resources and
extinction of mankind is not more than 600 years.
And you as I look, all
plan to live forever, right?
We plan to observe.
Contact with undeveloped civilizations,
only accelerates their destruction.
Hekon wanted to gather information and
prove that you are ready to meet.
The result of the mission was negative.
So what? No further attempts will not be?
There is a factor that can
make the change forecast.
What?
That's her. Her decision
not amenable to analysis.

I do not understand why she saved Hekona.
And why Hekon decided that
she must live for him.
This is not an accurate translation.
I will now review the
results of the mission.
On this depends our common future.
I have to pass the rest of
what is understood Hekon.
I understand... What?
Maybe there's something more
important than immortality.
This is an accurate translation.
We're
all looking for the dream, we go home.
dive deep.
In a circle of strangers
again fall to take off.
expunged letters and wish to forgive.
weather-beaten lips, we lose ourselves.
Turning comfort tired bored.
As people in the photo,
I'm tired of being alone.
Do not melted butter,
but I embrace you.
I'm back, I'm happy
Throw open the windows wide open.
Wake me up by the wind.
Let the city noise.
Our meetings are so rare.
Throw open the windows wide open.
Wake me up by the wind.
Let the city noise.
Our meetings are so rare.
On TV for a long time will tell
about the heroic victory over the aliens.
And while scientists will
puzzle over water engines.
People buy buckwheat. In
preparation for the next invasion.
No one will see the point.
After all, the truth is that a stranger,
from the distant cosmos, he believed in us.
More than we ourselves.

People say they can not live as before.
I... just can not!
