It's quite spacious.
The mattress is new.
Back there's the bathroom.
- Where're you from?
- From Berlin.
When he saw her human hands he said:
My wife had silver hands.
"Merciful God" said the queen
"it caused my hands to grow again".
And the angel
going into the chamber...
brought out the silver hands
and showed them to him.
Now he perceived that they were
certainly his dear wife and child.
and he kissed them glad and said:
A heavy stone is taken from my heart.
And after eating a meal together
with the angel...
they went home to the king's mother.
Their arrival caused
great rejoicing everywhere...
and the king and queen
celebrated their marriage again.
And ever afterwards lived happily
together until the end of their lifes.
- One more?
- No, tomorrow night.
- One more. Please.
- No, tomorrow.
Sleep well.
- Mom, can I read another chapter?
- Nope.
- Please.
- No, it's late, Benjamin.
- Good night.
- Don't let the bed-bugs bite.
Thank you.
I have to
be on the WPFD on the 23rd.
Mh-hm.
Can you pick Benjamin up from school
today? Don't know if I can make it
Of course.
Can we wait with group 4010?
We're not ready yet.
Ah. Be right there.
Thank you.
Computing the investigation
of the incidence risk factors...
and monitory
for the drugs regreations...
that can be detected
with a biochemical test.
Such as
blood induced blood disorders...
and the identification of potential
biomarkers for a drugs regreations.
So, the objective of this research...
is to investigate the value of
laboratory data collected in patient care.
What is it?
Is it a phone?
Sorry.
Well, it's nice, I didn't know
it had a ringtone like this.
I like it.
Um... yeah.
Uh... now we focus on drugs induced
thrombocytopenia. As an example.
First we investigated..
  - I'll go ahead and do it.
  - Thank you.
  I love you.
  I love you too.
Hi.
  - I'm sorry.
  - It's okay.
I'm late.
I'm sorry.
  - Hello.
  - Hello.
  - Hey.
  - Hey.
  - So did you start already?
  - No.
No?
Good.
So, Benjamin's doing really fine.
He's a smart guy.
He's really interested in...
reading and in stories.
- Everything all right?
- Yes.
- You're still coming around tomorrow?
- Yes.
You're early.
I want to look inside.
See you later.
Hello.
Don't you recognize me?
You recognize me?
Slow down... Madam.
Calm down. Calm down.
It's time.
Oh, I'm sorry.
- We'll continue tomorrow.
- Yes.
- See you tomorrow.
- Thank you.
I...
If I...
Mm, I'm not sure...
It's just...
it's... it's very difficult for him.
For me, too.
But even worse for him of course.
I understand it.
He doesn't trust me anymore.
And of course
I... I know...
I just think...
I mean, if I...
If... if I...
How's it going
with your new medication?
I really don't know
what I'm supposed to feel.
- It takes a while.
- Yes.
Is he going too
with Isaac tomorrow?
I don't know for sure if he'll be coming.
- I did asked him to.
- Well, we'll see.
- Shall we begin?
- Yes.
Max is a very good lover.
We know each other well.
It's very...
familiar when we...
He knows what I like.
He's very warm, very tender.
And...
We have discovered
a sort of way to...
A way of... things we do.
How we start.
It's not that it's always the same.
I mean, we don't have a certain pattern...
but that is not absolut.
It changes too.
Whether I, or...
he, or...
the way it goes.
And that is actually always...
good.
Can you tell us what the difference is between Max...
and the men you invited to your room?
Right.
They don't have anything to do with each other.
It is really something entirely different.
They are...
They all have something...
Max is a very handsome man, and he's attractive and...
I want to touch Max always.
That's almost automatic. It's, uh...
Do you mean you didn't really want to touch the other men?
No. Yes. Yes, I mean yes.
but it's, um... it's different.
It's a completely...
different sort of touching.
It's an even entirely different feeling...
But when... but when
did you decide to rent a room?
Was that before our vacation?
Or did you already have it
on Benjamin's birthday...
when we had that horrible argument?
Was that actually about this?
- What? Benjamin's birthday?
- Then why would you rent a room there?
Why didn't you
just go to a hotel?
How did you find that room
anyway?
All the preparations
before you could even start.
I was...
lying in bed and...
suddenly I saw this...
hairy arm.
And...
it was lying on my stomach.
Only then I did realize
I was not alone.
And you still hadn't looked
at the man beside you in bed?
Yeah, afterwards.
He was asleep.
- What did he look like?
- I don't know.
Huge and sweaty.
- And his face?
- I didn't looked at his face.
I was watching the hair
on his arm.
You told us about the man
with bitten nails.
The man
with the hairy body.
The man
with the pockmarked nose.
You chose these men
based on those details.
Why do you think you did that?
Can you give me an example?
Why such a man
with a pockmarked nose?
What did you want from that man?
What did you ask of him?
I think...
I think I shouldn't be saying it.
I shouldn't tell at all.
It only makes it worse.
Madam von Ribeck?
On March 4, 2009, the central medical
disciplinary tribunal...
has made a preliminary verdict.
This serves as evidence
for the final verdict...
and as an indispensable expert
psychiatric report...
for information and advice
of this case...
to determine the time
of the research of...
Madam von Ribeck's disease
or other disabilities show...
that the issues...
detract too much from her duties
as a doctor to perform properly.
The psychiatrist is the Saint-Jean
de Dieu hospital in Brussels...
and on behalf of it's disciplinary tribunal
report published on July 8, 2009.
The psychiatrist seriously doubts
that Madam von Ribeck...
will be able to properly fulfill her duties
as a doctor in the future.
The psychiatrist found that
Madam von Ribeck...
not at all understands
what she's done.
After the examination the psychiatrist
says also that Mrs. Von Ribeck...
shows no insight and suffers
from an underdeveloped conscience. This means that Madam von Ribeck insufficiently expressed regret... about the acts she has committed during the period in question. In this case, empathy for the accused person's position... isn't justified... and the need for health allows no risk to run. The verdict of the central medical disciplinary tribunal... to remove Charlotte Gudrun von Ribeck from the medical register... should therefore be executed. The time will be about one week.
- One week?
- Yes.
You sure? Are you sure this will done by Friday? I'm pretty damn sure.
- Yeah?
- I will check.
- Five meters?
- Yes.
Let me do it, ma'am. I'll do it.
- No, no, Ms. Shanti, thank you.
- I can finish it by tomorrow. Yes, but, you know it keeps me busy.
- Okay, ma'am.
- Okay, you're very kind, thank you. Nobody's here. They're gone to another building. No-one is here. Everybody's gone, hm? They went to another building. Oh.
- I have a look inside anyway, okay?
- Right.
- Okay, okay.
- Yeah?
Okay.
- Thank you.
- Okay.
- Hi. Is she inside?
- Sorry?
- Charlotte, is resting?
- No, sir, she's gone into town.
- I brought lunch.
- Thank you.
Does she go into town often?
Alone I mean?
Yes, sir.
Every morning, sir.
Look at me.
Can you let me in?
Max?
Max?
Sounds okay.
- Is that good?
- Yeah.
Come and lie down.
Come.
Sometimes I don't know
who you are anymore.
I'm the same person.
I don't know if that's enough.
I'm here.
Now.
With you.
Why can't that be enough?
