Looking sweet mama

Don't wish to be disturbed of course  
I'll see to it you have complete privacy  
In the labratory as usual  
Machine sound  
Beep beep  
Bragging about our no 1 nurologist  
I know I know I'm sorry  
Then your on show for the | residents orientation

Emily's memory  
Yeah its her last series of work  
She would want you there  
Well I I wouldn't miss it for the world  
A young women found stabbed last night  
Now police have yet to release any details  
But many fear it is the latest in a series of brutal murders | that have  
gripped the city  
We have a reporter on the scene now | We go live to his location  
Been out there two months  
What kind of monster would do this  
I'll be right back

Emily called that Lonley Woman  
Toward the end  
When she woke up you were always there  
Always there to take care of her  
Well shes still here

Crying  
Groaning in pain  
Yelling smashing of glass  
Girl screams  
Chocking sounds  
Kid pranks  
Henry where were you last night  
Why  
What are you doing right now  
Well im just on my way to see an artist whats going on  
Gabe  
I'm in trouble I I am I need your help  
Well its a legal matter its complicated  
Don't you have your own lawyer  
She'd ask to many questions  
im having trouble following you Henry  
All your contacts you seem to know everyone | I was hoping you would refer  
me to another lawyer  
Or one who discreate who I can trust | Who can get things done quickly  
How worried should I be  
Please do this for me  
Actually i do know someone  
Dont worry about the appeal or filing custody  
we'll figure that out later | I'll call you tomorrow

Hi  
Hi  
Ah sorry about the way I am  
You must be ? DR Jekyll ... Claire  
Nice to meet you  
Please  
Come in  
I'd like to tell you its not always like this but  
I appreciate you meeting with me on such short notice  
Gabe's such a great guy  
I'm a little suprised  
As you can see your not my usual clientel please sit  
Thats the least of my worries  
You made it sound urgent... it is  
Well then how can i help you Doctor  
That ... that girl they found strangled two days ago  
This belonged to her  
How did you  
Well apparently i took it as a souveneer  
I'm sorry I  
after I..... the others too  
I'm the one who's responsible  
That's not funny  
I want to plead guilty I want to wave trial | I want to be sentenced as  
quickly as possible  
Hold on wait a minute  
Your a dear friend of Gabe's right  
You are a respected physision and your telling me  
Can you help me or not  
Look im not the best person for this  
Someone who has more experiance who specialises | criminal defence that's  
who you should be talking too  
No no no  
Gabe he told me to come here he would not | have sent me here if you if you  
were not the right person  
Look even if I believed you  
You just can't do it um  
It just isnt done this way  
Why  
For one thing  
Most people who confess to such horendus crimes didnt do it  
Look six people are dead  
And im telling you im the one who did it  
What can be gained by discussing options except to | try and find some

technicality to try and get me off

Look obviously i dont have expertise in this area but there | could be mitigating circumstances

I'm not looking for a deal

This could mean the difference between a life sentence | and the death penalty

This was a mistake

Look i can give you the name of someone backed up by an excellent | firm with clout and resources to handle something like this

Thank you for your time

No no

Women screams

Laughing

What are you crazy

Laughing

This will help you to sleep mr manion

I'll be back to check on you in a little while

You remember me

I know im unforgettable

Don't take it personally

You were just in the wrong place at the wrong time

Let me tell you how it's going to feel

First there will be a wave of panic

When i turn off the machine measuring your vital signs

Then when i cut the i.v. supply your blood pressure will drop you | might even feel a metallic taste in your mouth

Are you surprised i know all this

Which brings us to the ventilator now when i disable it you

Well its hard to describe so why dont i just show you

Door bell sounds

Yes

Hi

I'm here to see Dr Jekyll

I'm afraid he's not in

Do you happen to know where he is | he's not at work

If you would like to leave your name I'll be | happy to give him a message

Please

Let him know i was here

It concerns a matter he came to see me | about yesterday

Tell him i think i can help

Thank you

Wait

Come in

Please wait here

What are you doing  
He said to go away  
You'll have to leave  
Okay  
Sobbing  
Well do it your way  
Thankyou  
I'll still have to know what happened  
Hm you wouldn't believe me  
A Harvard educated physician who saves lives by day and | takes them by  
night  
How much more difficult to believe can it be  
May i  
May i ask you a personal question  
I'd prefer to talk about you  
If you were forced to choose | would you call yourself good or evil  
Good I guess  
Yet you've had evil thoughts and | occasionally acted on them  
Haven't we all  
Well you see it's something I've always been fascinated with | ever since I  
can remember that how  
On an intrinsic level it seems we have two distinct selves | within us one  
good one bad each  
Struggling for control  
And as a doctor I  
I wonder could it be the key to understanding the very | nature of health  
and illness  
well for years it was just a private theory one | I kept to myself  
Then a year ago something amazing happened | it changed all that as if  
It were meant to be  
When I was in the Amazon deep in the rain forest  
Treating remote tribes  
I came across a shaman who worshiped a rare flower  
He believes it caused the soul to separate  
Allowing the dark self to escape allowing the light self to heal  
Like nothing ever seen before  
Later I took a blood sample from the shaman | and tested it  
Even his genetic makeup had changed  
I had to find the flower  
I'd finally succeeded in isolating its psychotropic properties  
A catalyst to trigger the effect  
The question was what  
For months it was all I could think about  
A blinding obsession

The more i searched for the answer  
The more out of reach it seemed  
Then just as i was about to quit  
Singing " i'll hold your hand while they drag the river"  
" I'll cuddle you and me unto town "  
" I'll keep my hands on your trigger finger "  
"I'll take you down where the train tracks go  
"Let's whale away the hours let's whale the evil night together"  
" We'll drink a toast in your torture chamber "  
" And you'll go down on a bed of nails "  
Edward .....Hyde  
That's what he call's him self  
Even has a name  
At first only taking the serum would make him emerge and | I could control  
him and the experiment  
Then he became more violent stronger and began | appearing at will  
How often  
Every week or two in the begining  
Always at night  
And then  
With increasing frequency the more i tried to suppress him | which  
triggered his erge to kill  
I see  
You dont believe me  
Do you think im making this up  
If I'm going to be your lawyer then it doesnt matter | what I personally  
believe  
I'll prepare a statment of facts  
Then we'll arrange for to turn yourself in  
I'll have you committed for 24 hours  
Committed  
A psychiatric ward  
I'm afraid something might happen again  
Yes its awful about mr lanion  
I have no idea if and when he'll be back  
You said he had a heart attack  
About a week ago  
Thats him right there  
Here it is  
2/12 Battery St Apartment 4f  
It says it was leased to Edward Hyde and | paid for by Henry Jekyll  
Why is that  
Sorry im just a temp  
I don't suppose you have an extra key

Gosh I dont know if i can  
No its okay im henry jekyll's attorney  
Well i guess its okay  
I think they keep the keys in the back  
How can you send him to me  
Why whats he done  
You say you know him so well how well  
I've known him many years he treated my wifes tumor  
What about mental illness  
Any history i mean  
As far as i know no  
Drug abuse  
Delusions  
Abnormal behaviour of any kind  
Claire  
Henry is the most peaceful person I know  
Well then he's covering up for someone  
Ever heard of a person named Edward Hyde  
Who  
Never mind  
Your busy I've taken enough of your time  
But you are going to help him arnt you  
I don't know  
I'm not sure I want to get involved  
Do you miss me  
I mean what a way to treat a dear friend  
First locks on the door  
And the looney bin  
Can't be  
So ungrateful  
To be given the freedom to experience the darkest thrills of the | human  
soul without anyone suspecting  
Your not real  
Oh well you see your wrong  
Your lucky I still need you around or youd have been | gone a long time ago  
What do you want  
Stop being a baby  
Suck it up  
You realize that only by execpting me can you finally except yourself  
I'm not you  
No  
I'm a good man  
Boring  
That's why your here

Your all in my head  
Testing myself  
Just think of all the good times we had  
You remember our first kill that moment of surrender it was | so sweet  
I can take control  
Hahaha  
You cant even tell that lawyer girl friend of yours what | what you think  
you want to do to her because you can't  
Stop it  
Make me  
No more  
Yelling  
Hey  
You okay  
Noise outside  
Screaming  
Ahh  
Still come up empty  
D.N.A doesn't match anything in our data banks  
Prints  
Deformed like the others.. maybe cuts the skin off | his finger tips  
Nothing yet on that area we searched  
wonderful  
I think we got some thing  
An earring was found matching one the last victim was wearing  
Where  
In a alley behind a apartment building on battery  
Anyone talk to the tenants  
This could be a coinsodence but a lady on the forth floor said | she saw a  
women running from an appartment last night looking scared  
Do we have an appartment number  
Getting a search warrant as we speak  
Good  
Phone ringing  
Answering machine  
I um .. I need a favour  
What happened to you henry you look terrible  
Here  
What's this  
If anything should happen to me i want you too open it | but only then  
every thing you need to do is inside  
What kind of trouble are you in  
I need to make sure that it doesnt fall into the wrong hands  
Henry

No questions no questions  
I have no idea what is going on with you... please  
Please  
Please  
Just... promise me  
Promise me that you will do this for me  
Yes  
Oh what happened  
Mr Hyde was here again last night  
After you .. left I left him alone as you instructed  
Well he's unwell  
We shouldnt prevoke him  
The police called  
The police  
They had some questions about the appartment you rent for your cousin  
And what did you tell them  
Nothing  
Its strange that too people from the same family can be so different  
I'm sorry  
Yes  
Police freeze hold it right there  
Henry Jekyll  
Police  
We have a warrent for your arrest  
Put that down  
If you had stayed there like you promised  
Wasn't like i had a choice  
Oh and what am i supposed to believe it was this | other person who escaped  
not you  
Hyde I told you his name is Hyde  
And Hyde knows I'm helping you thats why he attacked me last night  
What.. after I found his place i saw all the things he took from you  
So who is he  
Why are you protecting him  
Claire your in danger  
Why do you keep pretending with me  
Before it was random now he's doing everything he can to stay alive  
I can't help you this way  
I can feel him.. I can feel him.. did you hear me  
As long as im alive even prison wont be enough to stop him  
I need the antidote  
What  
The one ive been working on i finally figured it out just | before the  
police arrested me

By antidote you mean  
Its in my lab in a siringe you have to help me get it its my | only hope  
Is it just me your trying to convince or do you have | some other plan i  
dont know about  
You still don't believe me  
Its getting harder harder  
Changing into another person was not a medaphore  
How can you possibly know what its like | to feel someone else inside of  
you  
He discusts me he defiles me  
Lets start over okay  
Why dont we pretent you just walked into my office  
What  
Plead guilty you will be tried and sentenced | as quikly as possible  
I'm going to honor your request  
Fine  
Anything else  
No  
Then I'll see you at the plea hearing tomorrow  
What are we looking for  
Right here  
This is where Hyde attacked me  
Oh my god Claire  
If we could only find him  
This is enough  
Get of this case  
I'm not getting of the case  
Look i know i refered him to you  
What ever this is if anything happens to you  
Wait a minute  
Maybe were being watched  
Security is tight surrounding the trial as you can see behind me it is  
ab.....  
The overall feeling here today is one of relief ...  
While many people here remain shocked at such a distinguished doctor | And  
respected member of the community could have | committed such hanus crimes  
All rise  
Please be seated  
Mr Mendez  
Your honor  
Is the defence ready  
Yes your honor  
Very well  
Regarding the defendants plea

Your honor if i may id like to move for a continuance  
On what grounds  
New evidence which might have a bearing on my clients plea  
What are you doing  
Objection your honor any thing relivent to this case should have been |  
handed over to us prior to this hearing  
I found out about it last night  
And im supposed to believe that  
Well regarding this new evidence coucilor you'll share it with | the  
district attorney imediantly  
And be prepared to enter a plea first thing in the morning  
Court is ajurned untill then  
To plead guilty thats all i wont  
Well thats it  
It's a guy in a hood so what  
What if he's actualy the one who killed all these people  
For god sake wheaton your clients signed a full confesion  
We found blood from three diferent victims in his house  
To say nothing of the d.n.a. evidence linking him to | every one of the  
crime scenes come on  
Well there is someone else involved and his name is Edward Hyde  
There is no Edward Hyde and you know it  
Look I know you suckered me into this delay but you are going to | have to  
do better than this hail mary you pulled of some grainy | skid row security  
camera  
Listen  
Given the bazar elements of the case i think we both know | I can make an  
insanity defence stick  
Hm...what do you want  
To bring this guy in  
If it turns out to be nothing my client will plead guilty accross the board  
No conditions  
You have my word  
His name is walter swain the crack head  
Not exactly what you call relyable  
But he recognised hyde from the security camera  
Sort of possibly maybe thats the best we could get out of him  
All right cut him loose  
What you cant hold him  
On what charge  
Well at least let me ask him a few questions  
No  
I think we have pursed this avenue sufficently  
You remember the deal

Now if you will excuse me i have a plea hearing to reschedule  
Unbelievable  
Excuse me excuse me  
What now  
You people have harassed me enough already  
I'm not the police  
I'm an Attorney  
Well what ever your selling im not interested  
It's about Edward Hyde  
So you do know him  
Yeah from a bar I think  
We talked once thats it  
Look I need to find him  
Do you know where he is  
Listen please someone's life is at stake  
He said the cops were after him he didnt say why  
Said he was going to lay low for a while  
You know where he is  
Some place safe  
Thats all he said anyway ive got to go  
If he contacts you  
Or if you remember any thing else  
Call me  
I already told you everything  
Just in case  
So we have a problem  
Don't worry you got your plea  
Its your client  
Dr Innocent  
Just slit his wrists  
Phone ringing  
Phone ringing  
Who is it  
Yesterday at the police station you gave me a card  
What do you want  
Well ah  
you get me out of this place and ill get you something on whats his Name  
Alright  
Yeah exactly  
I'm listening  
Its about his landlord  
According to Hyde the dude saw something he wasn't supposed to see  
What  
Haha no idea

All he said was he didnt have to do much the guy just keeled over  
Like a heart attack  
I didnt ask but a  
Lets just say i wasnt feeling the love  
This landlord  
His name wasnt manion was it  
Now the hell should i know  
Listen to me  
I can get you out of what ever mess you got yourself into | but your going  
to have to help me  
We have a deal  
Deal  
Hi  
Mrs Manion.. Claire I just want to say how sorry I am  
Thankyou  
Did you know my husband  
Not very well  
It just seems so sudden  
Do you mind me asking just what happened  
Complications from a heart attack  
I heard he had heart problems  
Just wonder was it that off  
Do you know it was very odd  
I'd never seen him that way he was like a frightened child  
What do you mean  
Well just before he slipped into the coma  
He said the oddest thing  
At first i thought he was delirious but  
He said he could feel eyes boring into him  
Cold , hypnotic  
Eyes  
Of a man as he lay there in that alley where they found him  
He said he saw a man change into someone else  
Right there in front of him  
Pure evil  
Thankyou  
Can we have some privacy  
I've requested you be taken off the case  
Listen  
i made a mistake  
Please just give me a second chance  
Please im begging you i know you were telling me the truth  
I don't care anymore and its better that I get the death sentence  
Listen to me

If a killer takes a hostage who he forces to come along with him | while  
committing his crimes that hostage cant be blamed  
Who cares  
i care  
Look hoestly what ever guilt you feel hear | your innocent hyde did it  
Its like you said  
He's a different body person and soul  
Well it to late is the only way i can get rid off him is by dying  
And i just want to die  
Do you remember me alone and unforgiven  
Shut up shut up  
Oh  
Look at you  
Why  
Why did you do this to me  
You wanted me dont take me away from him  
I liked you Claire  
I liked you  
Very much  
Please  
Are you okay  
I'm okay  
We have all been waiting for the day when doctor jekyll is expected to  
enter his plea | Will it be guilty or not guilty  
Thankyou  
How do you feel  
I feel great  
Did he come back  
No  
No he is am hes gone  
Can I trust you  
Well I  
I've always told you the truth  
Your going to have to trust me now  
Will the defendant please rise  
To each of the six charges of first degree murder  
How do you plead  
Not guilty your honor  
Order  
Order in the court  
Order  
Insanity defence good luck  
Who said anything about insanity  
So doctor how would you define dissociate identity disorder

It's a condition in where a single individual evidences to | 2 or more  
distinct personalities  
Each with its own patterns of perceiving and interacting with the enviroment  
Now in your own profesional experiance  
Do patients ever pretend to sufer from this condition  
Yes usualy within a legal context as part of an insanity defence  
What if the problem of diagnosing D.I.D is that there is no way to |  
objectively prove that the condition exists  
No objective way of proving it exists so if i get this right doctor | then  
this mr hyde of hume i may add have no records off  
He could be a complete and total fabrication of Dr Jekyll  
Yes  
So Mr Swane how many times did you see Mr Hyde  
Why we hung out in bars and stuff so you could identify | Mr Hyde if you  
ever saw him again  
Yes sure  
Have you ever seen the defendant dr jekyll  
No  
Could he be mistaken for mr hyde  
Yes its funny yeah  
I guess he could  
But ah he's nothing like the guy im talking about  
When you see his eyes once your never going to forget them  
So this mr hyde he exsists yeah hes for real  
Were you under the influence Mr Swane when you | supposedly saw this  
supposed Mr Hyde  
Yeah n no ah maybe  
Yeah no maybe  
Okay  
Thankyou so much for your cooperation  
Sometimes  
Very late at night i could hear the voice of this other | person yelling  
and screaming  
It was terrifying  
Did you ever meat Mr Hyde  
Yes  
Once  
Just an evil person  
I could see it in his face I new that he was there to harm Dr Jekyll  
And there was nothing i could do  
We recoverd D.N.A. left on each victim  
At each of the crime scenes on each of the murder weapons  
All were found to contain the same genetic markers  
All matching the defendent

All  
And what are the odds Mr Fowler that these markers | can belong to someone  
anyone other than the defendant  
Approximately 170 million to one  
Really  
It's what hes devoted to preserving lives  
Not taking them  
And you know this because  
He did everything in his power to save my wife  
She didnt have much hope maybe six months to live  
Then he helped her to die with grace and dignity  
And it was more than just doctors skills ,compassion she | trusted him  
right to the end  
Henry Jekyll the Henry Jekyll I know  
Could never do these horrible things  
Well whats the deal they offered  
How bad  
Guilty  
By reason of insanity in exchange for twenty to life without parol  
Or take your chances with the jury  
Which i can feel im loosing  
And risk a death sentence  
What does henry say  
Only that he trusts me  
So what do i do  
what are your instincts tell you  
My instincts have been wrong before  
Look what ever you decide dont give up on henry  
I'd like to call my client to the stand  
Dr Jekyll why did confess to crimes you never committed  
The experiments that i carry out for my research  
Involve injestion of psycotropic substances  
They provoke extream reactions  
Psychological and physical i had a moment of doubt  
I might have been the one responsible for these  
Hannes crimes  
So am i to understand you had a moment of confusion  
Yes  
Dr Jekyll  
Do you know Mr Hyde  
Yes  
I do know Mr Hyde  
How would you discribe him  
To me Mr Hyde is an enigma

I dont how he found me  
Or why he ever came to my home i dont think | I'll really ever understand  
But what i do know is that  
When i emerge from this very uncomfortable journey  
I was accused of murders that he seemed to have committed  
Thankyou  
No further questions  
After all the twists and turns this trial has taken | the outcome at this  
point seems to be quite uncertain  
Well have to wait and see wether the defence or the | prosecution has any  
more tricks up there sleeves  
Thankyou  
Thankyou Claire

**I:**

Listen don't thank me yet it uh not over  
Oh it doesn't matter im free from him  
For what i wanted  
What ever happens now can't change that  
Good  
Cause im not finished yet  
Your honor we'd like to recall the states d.n.a. expert mr fowler  
Mr Fowler  
Isn't it true there are sections of human D.N.A. | that are unique to each  
individual  
There called polymorphic fragments they very | in shape from person to  
person  
So esentually d.n.a. profiling is the process of seperating | An individuals  
unique polymorphic fragments  
From those of others  
Thats right  
You ever heard of one person having two unique | sets of polymorphic  
fragments  
By definition that would be impossible  
Why is that  
Because the genetic coding of each persons polymorphic | fragments is  
intirly unique to that person  
I'm sorry mr fowler in that case why is henry jekyll | on trial here  
instead of edard hyde  
Objection your honor  
Jekyll and Hyde are one in the same person  
Well that is false your honor um henry jekyll | and Mr Hyde are two  
different persons  
What makes you say that counciler

Because according to samples taken by the police from Hydes apartment | the  
D.N.A. of Dr Jekyll and Mr Hyde are not the same

What

It's a fact your team missed Mr Fowler

Why was that

Because he was so convinced that Henry Jekyll | and Mr Hyde were the same  
person

He carelessly failed to compare there d.n.a.

Only one person fits the exact profile of the killer | and that person is  
Mr Edward Hyde

Its all in your report Mr Fowler

Thankyou

No further questions

Ladies and gentlemen of the jury

You herd the testimonies attesting to dr jekyll's charector

He is the opposit of a killer

He is a healer

And a man of vision and a man of compassion

The truth is simple

Convicting him beyond any reasonable doubt would mean | disregarding any  
definition of what constitutes a human being

His D.N.A.

The d.n.a. found at the scenes of these | barbaric crimes do not belong to  
dr jekyll

But to another man

Dr Jekyll cant be held responsible for these herendus acts

The one and only person guilty is Mr Edward Hyde

Ladies and gentlemen

The killer is still out there

And hes ready to strike again

Thankyou

Allmost three hours now well two hours 43 minutes to be exact

Since the jury began its deliberations and given the lateness | of the hour  
its unlikely a verdict will be decided untill

Wait

We are just getting word now that the jury is back and we | will bring you  
all the details as soon as they are available

Will the defendant please rise

In the matter of the state versus henry jekyll

We the jury find the defendent

Not guilty

Order in the court

Thankyou
