YELLING:

MUSIC:

Eva?

What are you doing here?

Where's your mother?

MUSIC:

Alex ...

How much time, huh?

It's very aspects that?

- Imagine ... Just ten years.

Come on, it's cold.

You's went well, no?

You've created some amazing robots.

To me it is for years

the thing boring.

Bores you draw robot boring?

Say, to draw robots

funny, for boring people.

I prefer to teach.

Students make you laugh out more.

You will go to daddy home?

It will be a mess.

You can stay with us if you want.

- No, no. Thank you.

- You know why they call you?

- Yes, of course.

To make you come from so far away,

the thing is important.

Important.

Come on, Alex ...

Always full of mysteries!

MUSIC:

Alex, you're having dinner with us tomorrow.

Hey!

Welcome home.

BELL:

- Hey, you seen the cat?

- Did you see the owner?

Good morning, Alex Garel.

Hello, Dorothy.
I need to talk to Julia.
Now Julia is occupied.
For you the years never go ...
Always beautiful.
Now you can not enter.
Julia is lecturing.
Alex Garel!
In summary, not manipulated
the character of your robot.
You have available 30 minutes
to end the test.
I recommend, try to
otherwise damage their profiles ...
Hello, Julia.
There are things that time
He fails to change:
You are late as always.
- NITRITE
- Raise the frequency ...
As you can see,
Here we continue to practice,
using the same methods
then.
Although the software is
much more sophisticated, it's clear.
- How do I stop?
- The command to the right.
- What do I do now?
- It lowers the frequency.
- It comes from us.
- Yes, I know.
He arrives.
Stupid robots,
stop making noise.
Stupid student,
stop making me so bad.
I'm sorry.
And now? What's now?
What do you see when you close your eyes?
Now yes you've fucked.
We can restart it and reinsert
the data base.
Sure, but once

that you have logged off,
you have destroyed
all its emotional memory,
his soul.
You see? He died.
If the restart,
It will look back to him,
but it will never be, never,
the same horse.
What do you see when you close your eyes.
This formula is sacred.
It should be used only in extreme cases.
When there is no other possibility.
It is clear?
So, you want to see it?
Draw a tree.
Come on, do not get distracted.
I'm tired,
I'm not going to draw more.
The S. I.9. As you planned
ten years ago.
Fully assembled and ready.
The structure, the endoskeleton,
muscle mechanics.
Including jacket.
But it lacks the most important thing.
The control software
emotional.
Reproduce the emotions
a child is nonsense.
You said it is not it?
It is the human being,
make mistakes.
The first free robot ...
It's amazing, is not it?
So that you had the imagined, right?
- Why me?
- I do not want to lie to you.
You're not the first
trying it,
but I think you're the only one
able to realize a robot
it's funny,
but at the same time ... also safe.

Alex, it's your chance
to end the
you have left in the half.
- Yes, but I will not work here.
- And where you gonna run?
For now, at my father's house.
Does' whatever.
So does the intelligence
emotional of a robot, it's simple.
A certain fact can hurt us
in one way or in another
depending on our
mood,
or as we are at that moment,
that is, under the circumstances.
An example.
This is our robots.
We meet, with our robots,
one day we are going to get out.
It's Friday evening and from that moment
we do not see him anymore,
until the morning ...
He will live experience
abandonment ... Got that concept?
- You all right?
- Yes.

MUSIC:

There came no more,
since your father died.
Are you sure you want
to settle here?
There's only a little 'dust.
You are crazy...
Tomorrow morning we will install
the equipment.
But you'll come take a look
to the children. Huh?
I'll have to choose one that can
modeling for the android.
KNOCKING AT THE DOOR

MEOW:

KNOCKING AT THE DOOR

Alex Garel?

S. I.7, good morning.

Max. No last name.

I sent the university because
the face of domestic
and aid in what
he needs.

- I do not know what you mean to me.

- That's the protocol.

To avoid the cloying:

No, it does not need. Yes it needs.

I'm sorry, I more ...

They send me and point.

- No. No.

If you do not believe me,
call for a confirmation.

I do not need thanks.

You can go.

level five. Food...

More clothes. More ... Cat!

Be thankful that you do not have hair.

More collection in general
of various objects.

It is the most critical aspect ...

Yes, but I ...

Quiet, I'm a robot,
it does not cost me anything.

If you do not mind,
I start right away.

I belong to the school of

"Before the duty, then the pleasure."

Come here. Come here ...

This is his moment of idleness.

It does in moments of idleness?

- Work.

In my dictionary, work and leisure

They are antonyms.

We'll find a solution
to the problem. A coffee?

A coffee and a walk ...

That's what it takes.

Is there a perfect time
for a walk.

- Can you do several things.

- Many more than it appears.
He created the team
David Garel.
My brother?
I'm prepared to play
various tasks. CHCF in the kitchen,
Butler, care of people
elderly, babysitting ...
I speak 29 languages. I also notions
Advanced DIY,
plumbing, electricity ...
I saw a broken tile that,
if you permit, I would like to replace.
Can you give me of you, Max.
Ah ... Thank you, Alex.
- Your walk?
- I do not know if I want to do it.
Please ... you will do well.
And then ... I need space.
Force, Grey, let's go.
Here it does not want.

MUSIC:

I'll leave you alone. If when I come back
you have not eaten the candy,
I'll give you 5 more.
If you have not eaten the candy,
I'll give you 5 more.
Do not eat!
As you see, we have subjected them
to various tests
Including that incitement.
- The old tests of candy.
- Exactly. What do you say?
About what?
As what? Some children.
You must choose one.
We need a model
for our robot.
Those are not good ...
Not even one.
I do not know, I'm too boring.
- How boring?
- Yes, that's right.

Who wants to live
with one of them? Mm?
The father and mother, for example.
They do not count.
With any child,
we will have a robot whatsoever.
Alex!
Emotional intelligence applied
to robotics so it works, okay?
The fuzzy logic and algorithms
genetic, allow us
to design a brain
Artificial with variability.
What does this mean?
That among all the choices you have,
he always opt one
which best suits
the individual needs ...
which he has faced.

BELL:

Well, tomorrow we take from here.
Thank you.
What an honor, Alex Garel in a classroom!
It will be the second time
as I know you.
Did you see? now studying
your absurd theories.
I do not know why.
They are useless.
I think the students
will not listen
my stupid theories.
- Oh, no? And why?
To see you.
Sure.
I have to go, I have a meeting.
When you go out, turn off.
What, are you looking at?
I'm not looking.
Ah, no? And as I call it
fix your gaze on one thing?
Look.
So you were looking at me, right?

Do you often?

- What?

- To watch the kids.

- Happens to me.

- What power!

A pervert who admits

not to be problems.

At least you're original.

It's not like you think. For me

it's a matter of ... work.

If you're not looking for excuses original.

You say that it is

a working question?

Seriously?

Bah, I do not care. Hello.

Wait!

- It's like in the movies.

- What?

In the movies, when she leaves,

he says, "Wait!"

she turns around and he kisses her.

What's your name?

Eva.

Do you want a candy? Only one, however.

Only one? You're a pervert

professional ... What are they?

I do not know.

So I do not like,

but I take them both!

Do you want a candy?

It is the "I do not know."

However it's a "do not know"

that tastes like strawberry.

Working for the Faculty of Robotics,

I'm building a robot.

If you and your needs updating,

I'd love to work with you.

I have to admit that you're

a different pervert.

But they are waiting for me at home.

See you!

MUSIC:

Right on schedule.

Lunch is on the table.
Despite the mess.
Your walk?
Pleasant.
the technicians came
of the University.
They brought a complete prototype
and the necessary hardware.
And ... it is already installed the hand-up.
It is exquisite, Max.
I proceeded to prepare a basket
for the kitten.
Ah, no! You forget this!
You can go wherever you want,
to do what you want,
but you can not break or take them
in disorder, or ...
Alex, pee does not make it, right?
Alex, the cat must be broken.
I think it should be repaired.
Gray is a free robot.
He does what he wants.
It does not answer all the rules
safety,
but it is very good company.
- A free robot?
I know of this application.
- Because it's illegal.
Take care.
However you do not ruin your life.
Listen ... the kitten
company, now Alex eats
and then let him work a little '.
On, is' the good cat, kitten.
- Max?
What level "emo" you?
- As standard, level eight.
We are not used to home
much emotional. Turn it down to six.
Done, Mr. Garel ... you're level.
However you can give me the same as you.
Thank you.

CURIOUS:

RI DE:

CHEERFUL:

Smoke.

Receptive

Smoke.

- SHere LLA T HE TELEPHONE

- SCREAMS

- Yes?

- Hello, loser.

- Hello.

- Come to dinner tomorrow?

- I have a lot of work ...

- Yes ... At nine. Timely.

No ... David!

SCARY:

Alex, salts.

LANA DE RI:

MUSIC:

There it is!

- How are you? How are you?

- Good.

What beautiful flowers!

- Wine?

- Yes, of course.

Then, he was put home dad?

To do shit.

I met Max. Congratulations.

- Hello.

- Hello.

Thank you.

Hmm ... How was Australia?

There's a ... Australian?

Nothing serious.

To women, Alex,

He has always preferred the robots.

- The women talk too much.

- Yes, you do not know what.

Hey!

EVA coughs

Hello.

How much smoke!

- What's there to eat?

- Soup.

Eve, meet your Uncle Alex.

It's a pleasure.

We bring to the table.

Congratulations.

And we ended up drawing
robotic cells ...

be implanted in patients.

- What works?

- It's doable.

- Wonderful...

And why were you gone?

To work in a better place.

Best of Santa Irene?

To me there.

Even for me.

And with Julia now? How did it go?

What you should do?

- Come on, do not break up with your secrets.

- You know I can not say anything.

Who is Julia?

A wise old lady
and grumpy.

A toast...

In the old days!

And with new secrets!

Remember the Eric robot?

Who is Eric?

A friend of ours who built
a robot that worked in its place,
because he was one lazy.

No! No, no peas!

- SCREAMS

- Peas Peas

No, no peas!

No. No, no peas!

By ...

No, no peas!

- There are tests to I'S. I.9?

- Mm, mm.

Then I pass out.

is not it a bit 'over the top to
modeling for a robot?

Yes, I'm looking for a model
funny.

Good! It's just an antioxidant.

NOISE OF STONES THAT WHISK

ON THE GLASS:

Hey!

Pervert!

You are one who is asleep, huh?

It's half an hour I'm out here.

Careful ...

So it ends that you break your head.

My mother says that to learn

to do something,

We must fall many times.

- Yes.

Then? You do, you come in?

Or do you fear?

You did not understand.

What he meant my mother

It is that I should not be afraid

you're welcome.

DEAR Llon OF MUSIC

MAX DE RI:

MAX DE RI:

- What are you laughing?

Welcome in this house ...

Please do not remain standing.

Sit down, you'll be more comfortable.

Something to read?

So it's better. Of course...

Much better.

Come down!

It does not bother me.

What's your name?

His name is Grey. It's a prototype.

He does not speak. Meows and just.

It is the only robot that has a function

"free".

That's not true, Grey?

- meows

Good. I am S. I.7.

Max, with no last name for friends.

Nice to meet you.

RI DE:

II pleasure is mine. I'm Eva,
no last name for friends.

RI DE IMITATING MAX

- MAX DE RI

- Care to make a play, Eve?

- Yes.

Surprise.

Tired.

Happy ... Jump to know why.

Use a single word.

Always a single word.

Contenta.

Angry.

Angry.

- Very well...

Insightful.

- Mm?

- It is to make it more fun.

Are you getting bored?

You never told me what good it

It seems a waste of time.

I configure with your reactions
the emotional memory of the robot.

So it will come out a boring guy.

I thought you wanted to do
a different robot.

It's true. That's what I would do.

If you'll help me, you will resemble you.

Laugh and be angry as you.

The last and that's it, okay?

Sad.

Are you sure? Take a good look.

He's crying.

Sometimes you do not cry
because it is sad.

- What would you say?

- Allegro.

- Allegro?

- Why did he just won a race.

So?

He is sad because he won.

And because winning makes it sad?

Because he knows he can not win
always.

If it was so, when
someone loses, should laugh,
because he knows he does not lose it
For all life.

Oh, oh. Miss
answers has no answer.

Yes I have it!

- When you get angry you're funny.

- Do not laugh!

Open the door.

- Where are you going?

- I said, open the door!

Door.

If you think you may run behind,
I'm sorry, I'm wrong.

KNOCKING AT THE DOOR

Door.

But look! You're back.

Of course ...

If you do not come and fetch you,
I have to go alone.

However I return to a condition.

If you want me to help you again,
I want to see the robot.

This here is the processor ...

The brain of the robot.

- His brain? What is great!

- Actually it's not great ...

It is small ... Like a ball.

What are these pieces?

The elements that make
the character.

That piece, for example,
It is the aggressiveness.

And what?

This? This ... is pride.

It is very small
to be proud.

Now let's put in operation.
How beautiful...
It does now?
He reacts to what he sees.
You build a memory,
based on his experiences.
Like a human.
And so, Eve ...
it's like you see I'S. I.9.
- We wash the head well ...
- Sizzles much.
No, that's not true. Whining.
Today I went to Alex's house.
When?
After school.
But you told me
They were going to Mary.
I'm more comfortable with Maria.
I told you a thousand times
not to leave the country by bike.
I was careful.
I do not care,
I do not want you do.
Sorry.
Promise me you will not do it again.
Then? In bed without a story?
I promise you.
Why did not you tell me about Alex?
Dad flushed when he went on.
- Much?
- Yes.
And you?
- I, too, very much.
- Because?
Well ... Why do we studied together,
We were working on a joint project.
There was great affection between us
and suddenly it is party.
He has left us sad
and angry.
You loved him as a dad?
- Yes. More or less.
- More or less?
More or less?

But that long tongue!

- You look happy.

- I am.

Have you come to tell me something?

What happens...

if instead of a child,

we make a baby?

Alex, as I already told you I'S. I.9

He is a child.

Just missing your program

emotional reaction. Mm?

- Emotional reaction, you say?

- Yes.

Well ... Children are wimps

and boring.

Girls are more sweet,

more mature, more sensitive ...

and much more pretty.

But a little girl

It is even more malicious, more ...

jealous and more twisted ...

Are things that I know, because, you know,

many years ago, I have been.

Now get off your ass off the chair

and goes' to work.

Not paying you to be here,

to ingozzarti with my cookies!

Not so many years ago ...

BELL:

You do not spend more on research?

Now you enjoy teaching?

I like to teach.

It is very different, however ...

I have a more peaceful life.

You look happy.

Yes, because we are not.

And you? You met

Who broke your heart?

Alex, Eva told me

your test,

and ... sorry, but I'd rather

that I did not do it with her.

She's a child and want him to do

things as a child.
So if you do not mind ...
- No, of course. Excuse you.
- No ...
- She is so special that ...
Oh, yes ... It is really.
Besides, you were expecting?
She's my daughter.
Well, then ... I see you.
Good luck.
Thank you.
Do not laugh. Do not laugh. Do not laugh.
Do not laugh...
Open the door. Open the door ...
You'll be glad.
You got that, kneeling,
supplicassero to come back.
As you know, between us,
I am not the brother loudmouth.
Nor that cute!
However you're more awake.
- We're both very cute.
I do not agree...
I am extraordinarily
intelligent.
And humble.
But like you, there is one
in a million.
Guess why
I am the most beautiful.
You were very beautiful, yes ...
You know who I saw the other day?
Glory.
Ask her out. The week
Next there is a party.
I do not think I've forgotten you.
- We had 12 years.
Do you know how they say the first love?
It remains for a lifetime.
If.
Good morning.
I thought the schivavi ...
- Eve, he can not do.
Your you do not want come here.

I'm sorry.

So? I want to go there.

And you need me there is.

- There are so many children.

- But not like me.

With any child,

you will have a robot whatsoever.

Let me in, come on.

EVA KNOCKING ON THE ROOF

Eva, come down ...

- KNOCKS AGAIN

OK, however you want...

Then nothing. Sin.

Today I wanted to tell the story

di David e di mamma.
