THREE MONTHS BEFORE

BL REPUTATION MANAGEMEN HEADQUARTERS

Here it is.

This way. Sit.

I'm Lena Leibovitz,
this is my partner Russel Belial,
our lawyer, Clift Brown.

We ask you to come here today,
recently because very serious
occurred in our company.

Most of our clients
subscribe

our online services.

About two hundred per day.

So you can imagine how
we were surprised Friday morning,
when our server came down
after recording
million new users.

We know that was a hack.

We lost some major customers,
that's what happened ...

just because some

boys wanted to have fun.

The positive thing is that,
when someone accesses our system,
there is always a possibility of ...
Catch him.
And you know that the District Attorney
always like to lead by example
with some stupid guy.
Especially if they poke their noses
in matters of National Security ...
We found some IP addresses
and investigate.
Here's how we catch our man.
We know.
You know what I mean?
We represent ...
a lot of upscale clients.
Trust us
to create new identities ...
change the facts ...
write history so to speak.
Would not you like to work for us?
You already know our systems.
Great.
I take that as a "yes."
The arms trade

A number of unarmed civilians
were forced to lie
on the road.
And this is what happened ...
After issuing a comprehensive report
violations of the embargo,
the founder of Human Search,
Alice Carson,
can finally have their day in court.
Judges of the ICC will vote on Monday
if the cause is coming ...

ALICE:

I HAVE A JOB FOR YOU.
HUMAN ORGANIZATION SEARCH

Here are some photos
of victims ...
Compare them with photographs

through the ... How is called,
software "facial recognition"?
Then we

and create a master list,
with addresses
and grouping them into categories.
How many people are there?
It will cost us weeks ...
Here you have a file named
and addresses. Not everything is.
That's why we need you.
Who else has access to it?
No, just you and me.
Why? Is something wrong?
How can you make money with this?
I've got a donor or two.
- But I'm risking a lot.
- Who?
People who know how to force
lock my office.
Sorry.
He was creating codes firewall.
OK.
Are we going to matter?
This is TEECO, a company
within Fortune 500.
The CEO, John Chester,
just died 87 years.
His son James who will inherit the position.
His wife is the problem.
We found that in the nineties,

under the name "Bella Blue".
In 2000, it disappeared completely.

- Does your husband know?

- Fortunately, no.
They now have three children,
organized political funds collected
and some members are
of the largest charities.
So, we want
to cleanse them last?
TEECO.
The board
it is naturally worried.
I see ...
Still have some fan pages ...
Is she?
Yes, she is.
We will need
a good story to it.
Let us kill!
Why do you need to kill?
We started with an online rumor:
Bella Blue died in an accident
self, suicide, whatever ...
We climbed some items,
manufacture some photos
and we have the paper trail
for Mrs. Chester.
What about everything printed?
The papers collected
and put you on their websites
and from there everything will start
to turn on itself.
OK.
Let's do it, pull the trigger!
The company you have booked a suite,
so you can work at your leisure.
I will pass later to see
how will all ...
You have two weeks.
Good luck!

Let's see how anything between fish

Clift? Are you ready?
They require a certain number of civilians
unarmed to lie on the road.

Here's what happens next ...
The arms dealer Van der Bilt
was arrested and released
a few hours.
has been identified
by the International Criminal Court
suspicion of violation of the embargo.
Over the last twenty years,
Van der Bilt has built
a major fortune
on weapons in Europe
and is also responsible
by countless deaths
as a result
illegal arms trafficking.
Yes, I've seen the news ...
Talk tomorrow ...
I have not finished.
He posted bail and disappeared.
Although we kept until the last
donor, we would lose the case.
They are too strong.
Do not worry, you pay me later.
Loise, do not you understand?
No, I do not understand.
I'll call you, okay?
Yup?
Had long wanted to talk
with you.
Prefer to meet me in person ...
We send by post the address
and I'll see you there.
Okay, bye.
Come, come!
Did you bring the laptop?
I'll show you something.
I had a telephone meeting
with some arms dealers yesterday.
They sell their product
the wrong side.
There was an embargo.
Now they have problems.
Those are the customers.
There is a front company

and a major company.
And is this? It is the lawyer.
She filed the lawsuit
before the International Criminal Court.
They tried to throw her out of the way,
but she is stubborn.
I organized a meeting with her
for a "job interview" tomorrow.
I'll throw her off the track ...
Slowly.
What can I do?
Invent something good ...
Tell them that were there
to provide food and medicine,
usual.
And we need to clear the transfer
bank from the Cayman Islands.
I do not know how the hell he figured,
but I'll get to the bottom of this.
Stop here, please.
Do you think you can handle it?
All Right.
Just make it look
which are of good.
I'll be back in a few minutes.
And there have been another shooting today at the center,
it seems that ...

- What are you doing here all the time?
- Do not you?
I need a good wi-fi connection.

So you work in technology?
Not exactly.
I'm more interested in history.
What kind of story?
I do not know ... People ...
To me, I'm more interested technology.
Are you a game tester?
I am player.
Look ...

Protocol ICMP:

That's it! I'm in.
Within what?
The Bank of Pyongyang.
- What I can do?
- I do not know.
Enter a bench truth!
How Bonnie and Clyde?
Why not?
Do you know why a computer
It is so easy to hack?
They are not made for the Internet.
It is his great weakness.
I do not think either is made
Internet people.
Personally,
I do not trust computers.
But you have one.
Yes. Is there another option?
What do you trust?
No virus, batteries, never breaks ...
Very reliable.
It could store thousands of them
on my hard drive.
Yes. You're not in this world.
I did not want to bother.
Where are you going?
Russell sent me
to see if you have installed ...
And here are the files

you asked us.
You know, at first I was not in favor
your contract ...
But now I'm
as shocked as Russell ...
Do you mind?
I can not stand these heels.
Do You Want?
Do not have much experience
with women, right?
All right.
Relax.
All right.
You know ...
I wondered ...
What excites you?
Does the cyber sex?
Hello, sister,
what you tell yourself?
All Right.
Do not you?
Getting used to my new apartment.
Still in New York?
Well, you know ... It's been tough ...
Do you need money?
I want to see you.
Why I never call?
I'll call you if there is anything new,
Ok?
Do you usually have meetings
at home?
Do you normally? Do Not.
Only when there is confidentiality.
Then we get to the point.
He said the two have information
valuable to share.
Did I say?
You called me ten times.
So, I wonder ...
Okay, okay.
I am a headhunter ...
I'm looking to hire someone
for a technology company.
No work in the technology sector.

Do you know anything about hackers?
Something of police investigations?
I have to do with criminals, but only
in terms of human rights.
So I looked at your profile ...
You know why Babylon failed?
Much information, too many languages ...
a failure in communications.
That's where we are today.
And we do not need is another Babylon.
So I think to be applied
standards of human rights
on the Internet.
Seriously, I ...
I'm not in good shape.
So I think I've come
at the right time.
Tell Me,
How much you like to win a year?
- What do you mean?
- I mean ...
tell me figure.
If your dreams come true.
If my dreams come true?

RUSSELL:

A NINE O'CLOCK.
Sorry, I missed the bus.
Like the water?
Want to take a dip?
I can not swim.
A hacker or leads or anything?
Go modern man.
Come on! Your parents
They never taught you to swim?
I never knew my parents ...
Do not you have any family?
Look at the benefits:You're a free man,
rootless, you can do whatever you want.
What about you, have a family?
I also do what I want.
I want to ask you something ...
You know the hacker group,
Independent Leak?

What do you know about them?
I know it's hard, radical ...
Pirates banks, corporations, governments ...
and we also ...
They intend to release millions
Post Ads
we do not want to leave.
We have to do whatever
to stop them.
I got this.
I have a name for you:
Angela King.
Apparently he is their leader.
We do not know much about it.
There is no known address,
always moving and sometimes
locate lists of airlines ...
but always too late.
Maybe working for the Chinese?
No, it goes free.
How will our firewall?
It is safe ... Now.
All Right.
Because we can not take risks.
Come on in, I want to give you something.
No longer have any excuse for being late.
Now we follow the same schedule.
Thank You.
How are you coming back home?
By bus.
Take my car.
Call it an advance payment
on your next job.

LOISE:

HAVE YOUR BOOK.
Hi! The door is open.
My door is always open.
- I give you back your stuff.
- Thank You.
Ah! Life Against Death
Norman O. Brown.
A favorite of Jim Morrison!
I like to see that this place never changes.

I have not read this.
- Can I?
- Yup.
A coffee?
You seem worried. What's up?
Do not have heard of him?
Do Not.
It's over ...
You know it is not so! It's a part of you.
And there is always a possibility
have good news.
I do not know.
Well, what about you?
I'm finishing a book
on that hedge fund
related to drug trafficking.
I think I'll call "Merchants of
Powder "or" Wall of Powder ".
- I have not decided yet.
- That sounds great for the Pulitzer!
Do Not! I do not think so.
You're my only friend.
Why do not you take a break?
To leave town for a while?
I think ...
I have to go ...
LOISE STREET STREET BARNABY.
FOURTH FLOOR.
You sent me your address ...
So I assume it's an invitation.
Wait!
Do not drink?
I've never met a girl like you.
Why do I say that?
I do not know, you seem very nice.
- You shall not name ...
- Do Not ...
I like your company
but my message was not a proposition ...
Of course.
So do you play?
Yup.
Want to try?
No, I think you're

too good for me ...
Do you play a video game?
Not anymore. It is child's play.
I play all the time.
I created a game that combines
telepathy, virtual reality
and the real world.
I'll show you.
In any room,
I can simulate a chessboard.
Sixty-four squares.
A, B, C, D, E, F, G, H ...
1, 2, 3, 4, 5, 6, 7, 8 ...
I use some objects in the room
like pieces and the game comes alive ...
The coffee can be a horse,
vessels there may be pawns ...
Even you and I can be components:
bishops, towers ...
King ...
Queen.
Are you with me?
Not exactly ...
Close your eyes.
OK.
Let's start with the pawn. Play ...
e2-e4.
Now, your turn.
Test ...
NG8-f6.
Are you with me?
Okay, this is my horse.
I move towards you.
Game Nga-F6.
No, do not do that ...
But if I have not done anything!
It's telepathy between you and me.
What you feel? Trust me.
Let it guide you.
Take my pawn.
Now, move it. D2-D3.
Now!
- Ne4-c5?
- How did you do?

Concentration!

Very well. Qd1-e2 game.

- And you play ...

- Q7d.

Yup! Protect your king.

Now, if you move to the right ...

you protect your king and then,

I move my queen.

Okay, I can no longer concentrate more!

OK.

You know how to display the game.

Works as permutations

to guess passwords.

Every movement has a limited number
combinations.

- I Understand ...

- Okay, I'm impressed.

You're not.

Do you mind if I stay here?

I had a dream last night ...

Yup?

And you were in it ...

Really?

I have to go.

Will I see you again?

Thank You.

Thanks for what?

And since when are?

I do not know ...

- I thought you were over him.

- And I am.

The boy is young and naive.

We take a big risk with him.

And what about that girl?

She is young too.

I think it's nothing,

but I'll tell you something

you will not like.

It seems that worked

for my new lawyer friend.

Really?

You said you would not like it!

And you think it's a coincidence

they worked together?

- Can we be spying?
- I doubt it, Lena.
Listen, I'll investigate.
I will solve the problem.
Do not worry.
What does your new lawyer friend
about it?
She said that the girl is not a problem
but I had to ...
investigate further.
So?
And I grabbed me.
- Have you caught the lawyer?
- Yes, I fucked the lawyer.
Just business, Lena.
Are you satisfied, Russ?
I think he's in love with me,
I can not help it.
Want a job ...
Maybe.
You know, trust yourself
a bit much, Russ.
And, what is worse,
you believe your own lies.
I think that's your secret.

RUSSELL:

- Listen, we're at it.
- What are you working on?
Angela King.
Nobody wants these emails
whether public ...
The boy found information.
It will fly next week.
We'll take care of it.
All Right!
- Hi.
- I need a drink.
And how you play your game
in this room?
A, B, C, D, E, F, G ...
I thought you were not interested.
I can win.
1, 2, 3, 4, 5, 6, 7 ...

White or black? You choose.
Them.
You start.
E2-e4.
C7-c5.
NG1-f3.
Wait ...
Let me show you something ...
- What?
- Put it on.
What's this?
1, 2, 3!
- Do you see anything?
- It's beautiful!
It is a virtual reality program.
Let restart.
I've never done with two pairs of glasses.
Okay. The same. Concentrate!
- Are you with me?
- Yup.
Nb8-c6.
- Nb1-c3.
- NG8-f6.
QD4-d8.
Where is the king?
- KE7-e6.
- E3-e2.
Bf1-b5.
As ordered, my queen ...
- Checkmate!
- Right.
I think you lost on purpose.
Oh, really?
What are we doing?
- Listen, we're in it.
- What are you working ?
Angela King.
Nobody wants these emails
whether public.
The boy found information.
going to fly next week.
In a second, was completely hidden
in a cloud of smoke and dust ...
The circumstances of the accident

have attracted ...
since the Internet activist
Angela King
was identified among the passengers ...

RUSSELL:

SEE ME.

I talked to Washington this morning.
Someone caught Angela King.

- Did you know?

- It does not matter.

She is offside.

We have to think well
next move.

We have to anticipate the next
movement of our adversary.

As the game of chess ...

Do you play?

Do Not.

You should.

Business, politics, life ...

They are like chess.

You always have to go two movements
ahead.

The sky would look good
as a screensaver.

Have you had any dreams lately?

No, only this time I stayed at home.

See that little star over there?

In this star

is all the people I love ...

Is that you see?

Does it move?

It is a satellite or an airplane.

Think you're a part
of this universe?

Not at all.

Who is he?

- No One!

- Who is it?

- Are you jealous?

- Do Not.

He's my brother.

He disappeared long ago.

What happened?
It was in a fair ...
with my sister and my brother.
Remember those rooms
gaming machine?
You could spend hours on those machines.
Sometimes ...
my brother gave
around while playing,
as all children.
How old was he now?
Twenty ...
Have you tried in the database
the juvenile record?
Maybe he's there, somewhere.
How is it called?
Jeremy.
Here is their website.
I can find it later if you want.
I have to go.
Many unarmed civilians were
forced to lie on the road.
And then this happened ...
You should not worry about Loise.
Yes, I worry.
You can make change.
We are about to lose the boy.
She did not, get her out of this.
I do not get it.
She worked for you
and I knew well,
- Shit, but what's happening?
- Who are you? Does your guardian angel?
I'll take care of it.
Do not worry about it.
Okay, but I still
larger problem.
Who will take care of the kid?
Take care of him ...
It's your protected the end of the day.

Soyan:

ARE YOU OK?

LOISE:

What happened to you? You disappeared ...

Why my files

are on your computer?

- I do not know what you're talking ...

- My Files, damn!

I do not know what you're talking!

Who are you? Who the hell are you?

You would not believe me even if I told you ...

Sorry.

Get out of here!

My name is Soyan Schwartz

and I am an Internet activist.

I have infiltrated

in technological systems

numerous government agencies

and corporations.

Over the years, I have sought to reveal

classified information

and today I found something that needs to be

revealed immediately.

Today, many companies are trying

to rewrite our history

to manipulate the truth.

As Mao and Lenin and others used

propaganda for political purposes.

What is going on here?

Well, there are three ways to escape

of a bad situation ...

You can attack and fight your enemy ...

you can defend

and limit damage ...

Or you can kill, and quit the game ...

Which do you prefer?

You're a lovely boy.

Smart.

Even brighter.

But so naive.

Have you sent Russell?

That girlfriend of yours,

Loise,

seems to have been hacking

your computer.

- How do you know?

- We have our sources.
Who spies, me or her?
I'm just trying to save
that pretty ass of yours.
You cheated.
I never loved you.
- I just wanted your files.
- I do not believe you!
You better believe it.
Because it is the only alibi
it will work with Russell and their customers.
We still have much to do!
Get away from her!
You are warned.

LOISE:

THAT KEPT ME ALIVE ...
GOODBYE!
Loise, Loise!
Answer Me ...
What are you doing here?
All right. All right. We leave here ...
Out!
Okay ...
Where are we?
Who are you?
I do not know ...
Some time ago,
I joined some hackers.
I created an organization called
Independent Leak.
Hacked banks ...
corporations ...
police databases ...
insurance companies,
all we could hack ...
It started as a game
but it became something big.
We have millions of messages
email
and databases with secrets
people have to know.
About what?
Classified information.

Independent Leak was founded
by a woman,
Angela King.
She was murdered, right?
Attracted the attention too.
Where did you keep those emails?
I have.
I have a copy on site and one copy
safety elsewhere hidden.
I'll make public those emails
and then disappear.
I'm with you.
There are so many things I want to say ...
See you on the roof.
At nine.

ALICE:

Think I did something wrong.
At best, I crossed the line ...
but I never let the case.
It is too late.
I gave information that put you in danger.
See? I deleted all ...
No files. All clear.
I feel responsible for you.
If you have a plan, you should tell me.
None of your business anymore!
Yes, it is.
There are people behind Soyan ...
and behind you too.
What do you mean?
Be who you are and what you are capable.
Continued research.
I saw photographs, addresses, files ...
surveillance of you and Soyan together.
I thought you should know.
That's why I'm here.
Do not worry about me.
I quit.

RUSSELL:

RUSSELL:

SUITE 1009

How did you get in?
Pay this room
and contiguous.
Did you forget?
You're my guest here.
Then ...
Angela King ...
Soyan?
As King ...
in chess.
And Angela, like an angel, invisible.
I can not hear you!
Create your own avatar ...
book hotel rooms and flights
in its name
to have us chasing
someone who does not exist ...
How clever!
Very clever.
I underestimated.
Then, when we were
about to catch ...
killed her on the net ...
Bella as Blue.
How did you know it was me?
We connected the two.
How much would you pay for stopping
Independent Leak?
How much information do you have for us?
Enough ...
to show how you manipulate
media.
So you left your IP address
deliberately?
That was a hoax.
Large companies usually
make job offers to hackers ...
So you went as you would
Trojan ...
I wonder ...
how many more like you
will this horse.
We're like an army.
In hovels ...

cafes ...
wherever there
an Internet connection ...
We have no face ...
but we have eyes.
We can see everything.
You'll lose your queen ...
I do not think so.
Checkmate!
The present and ...
"Young and promising employee
a technology company
found dead of heart attack
in his hotel room. "
Do you have good, right?
When authorities
I ask, I'll tell you ...
how desolate I feel ...
I saw precisely
last night and seemed to be well.
And soon ...
all this will have
the slightest importance ...
because everyone will forget you ...
like everyone else.
Loise ...
Q ...
d4 ...
d8 ...
Loise.
- Where is it?
- Cleaning!
- Where is it?
- Excuse me?
You know what happened to the person
occupying this room?
He died.
I have been told that a heart attack.
They have taken the body.
All Right ...
A, B, C, D, E, F, G ...
3, 4, 5, 6, 7 ...
1, 2, 3, 4, 5 ...
1, 2, 3, 4, 5 ...

Where is? Fuck!

Where is?

The commission investigated the facts
that took place here.

It was a long day for families
of hundreds of unarmed civilians
who were killed
and still waiting
an official explanation for the deaths.

I will hide IP address
before sending.

Want it?

Come on ...

Today, the activist group Independent Leak
made public million
emails

belonging to BL Reputation Management,
A high-tech company
very confidential.

will take time
to assess the impact,
but this information has already shaken
financial markets,
affect congressional elections.

A Senate investigation probably
will be announced later.

It's over, Russell.

I can not hide it ...

After this surprising twist
situation,

The International Tribunal shall
again against Van Der Bilt
for violation of the embargo.

The suspect is in custody
awaiting trial

based on the new evidence
provided by Alice Carson,
founder of Human Search.

Soyan Schwarz two days ago,
Independent leader Leak,
was found dead in his room
the hotel due to a heart attack.

However, a recording
video secret

reveals that Mr Schwarz could have been
victim of a murder
to avoid exposing these emails.
Today, many companies
They are trying to rewrite history
and change the truth.
As Mao, Lenin and others who used
propaganda for political purposes,
corporations now control
images for commercial purposes.
We are on the brink of a new world
where the objective facts
can be altered in the name
Public Relations
by companies that are larger
states.

"The media
are the most powerful entity in the world.
They have the power
to make the innocent guilty
and make the guilty innocent.
And that's power and controlling
the minds of the masses. "
These are words of Malcolm X.
I am Soyan Schwarz
and I wish them luck.

Loise?

Who will now continue
with Independent Leak?

THREE MONTHS AFTER

LOISE:

I'll see tomorrow.

Do not know what to say.

Are you sure

do not you come with me?

I will be very nervous.

I do not want to scare you.

- You go.

- OK.

I'll call you.

Loise?

I always knew I never would give you
up on me and Jeremy.

We are family.
We are a family again.
Look, this is it.
And this is you.
And that's us.
All together.
The next time I return with Eileen.
Who helped you to reach me
through Internet?
Soyan.
A friend.
A very dear friend.
